PAGE 26

* 4.5.9, Dimensional control of cast parts: Add the following to the end of the paragraph:

"If any defective part is found when inspection is performed for control of the cavity, the cavity producing the defective part shall be removed from production and that portion of production since the last previous check shall be rejected."

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
