1. See SAE AS17184.
2. See MS17185
3. See NASM35338.

FIGURE 1. Clamp assembly – Continued.

Requirements:

Shock test.: The required number of clamp assemblies holding the specified test weight, shall withstand the maximum shock test as indicated, without loosening or other failure. The shock test shall be as specified in SAE AS20708.

Thread designation. SAE AS17184 PIN designation.

a. MS17184-1 nominal thread is (#4) .112 – 48NF-2A.
b. MS17184-2 nominal thread is (#6) .138 – 40NF-2A.

These thread designations represent a correction to the SAE.

Amendment notations. The margins of this specification are marked with vertical lines to indicate modifications generated by this amendment. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations.
