This amendment forms a part of Military Specification MIL-P-82518(OS) of 17 November 1967 and has been approved by the Naval Ordnance Systems Command, Department of the Navy

Wherever it appears in specification delete "Bureau of Naval Weapons" and substitute "Naval Ordnance Systems Command"; also delete "BuWeps" and substitute "NAVORD".

Page 3, paragraph 3.3.1.4: Delete "not less than 20 megohms" and substitute "not less than 0.5 megohm".

Page 3, paragraph 3.3.1.5. Delete and substitute:
"3.3.1.5 Insulation resistance. The power supply shall have insulation resistances as specified in Table III when the applied potential is 500 plus or minus 50 volts dc."

* Page 6, paragraph 4.1. Delete and substitute:
"4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements."

* Page 6, paragraph 4.3.3: Delete last sentence and substitute "When a defect is found in any sample, acceptance of all units in the lot shall be withheld and the contractor shall:".

Page 8, paragraph 4.4.1, item d. Delete and substitute:

"d. Ohmmeter	Measure resistance of 0.1 to 10 megohms: Accuracy of 5 percent, current output of not greater than 10 milliamperes, and open circuit output voltage at test terminals of less than 10.0 volts dc."
