COMMERCIAL ITEM DESCRIPTION

CORNMEAL, ENRICHED (YELLOW OR WHITE)

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Federal Specification N-C-521E.

This Commercial Item Description (CID) covers yellow or white cornmeal, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The cornmeal shall have a good characteristic color, possess a natural ground corn taste and odor, and be free from rancid, bitter, musty, and other undesirable tastes and odors. Cornmeal shall be packed not more than 60 days prior to shipment.

The cornmeal shall be of the following types, colors, and granulations as specified in the solicitation, contract, or purchase order.

Types.

Type I - Regular
Type II - Degermed
Type III - Bolted

Colors.

Color A - Yellow
Color B - White

Granulations.

Granulation 1 - Coarse
Granulation 2 - Fine

FSC 8920

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Physical requirements.

The finished product shall conform to the following physical requirements.

TABLE I. Physical requirements 1/ 2/

	Coarse Percent		Fine Percent	
	Minimum	Maximum	Minimum	Maximum
No. 20 Sieve	97		99	
No. 25 Sieve	75		90	
No. 45 Sieve		35	30	
No. 80 Sieve		10		20

1/ All percentages are based on weight.
2/ Cornmeal that will pass through U.S. Standard woven-wire cloth.

Analytical requirements.

The finished product shall conform to the following analytical requirements:

TABLE II. Analytical requirements

	Type I Percent		Type II Percent		Type III Percent	
	Minimum	Maximum	Minimum	Maximum	Minimum	Maximum
Ash 1/		1.80		0.70		1.25
Fat 1/	3.50			1.80	2.30	
Moisture		13.50		13.50		13.50

1/ These limiting values are on a moisture-free basis.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is

sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the Federal Grain Inspection Service (FGIS), U.S. Department of Agriculture, will determine the quality assurance of the cornmeal according to FGIS procedures. The product shall be examined and/or analyzed in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The cornmeal shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer:

A. Commercial packaging. Twenty-four ounces or five pounds of product shall be packaged in accordance with commercial practice.

B. Commercial packing. Twenty-four 24-ounce packages or eight 5-pound packages shall be packed in fiberboard containers complying with Uniform Freight Classification or National Motor Freight Classification, as applicable.

C. Export packaging. Twenty-four ounces of product shall be packaged in accordance with commercial practice. Twenty-four packages shall then be packaged in an intermediate fiberboard box conforming to Style RSC, Type CF, Class Domestic of PPP-B-636. Each intermediate box shall be enclosed in accordance with Method II as specified in the appendix of PPP-B-636.

Check the source to verify that this is the current version before use.

D. Export packing. Twenty-four packages (one intermediate box) of product, shall be overpacked in a snug-fitting fiberboard box constructed, closed, and reinforced in accordance with Style RSC, Grade V3c, V3s, or V4s of PPP-B-636. Prior to overpacking, the intermediate box shall be enclosed in a waterproof case liner, fabricated and sealed in accordance with MIL-L-10547 for subsistence items.

E. Unit loads (commercial and export). Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads.

F. Labeling (commercial and export). Commercial labeling shall be acceptable.

G. Marking (commercial and export). Marking of shipping containers and unit loads shall be in accordance with MIL-STD-129.

Notes.
