COMMERCIAL ITEM DESCRIPTION

BIN, DISPLAY, PORTABLE

The General Service Administration has authorized the use of this Commercial Item Description.

1. Intended use. This commercial item description covers a heavy duty, portable display bin (see 5.1).

2. Salient characteristics.

2.1 Design and construction. The bin shall consist of back and sides, shelf, platform and four casters. The bin dimensions shall not be greater than 36 inches wide by 41 inches deep by 53 inches high. The bin shall provide for front loading and shall be capable of withstanding a load of 1000 pounds without visible signs of distortion or loss or rigidity. The bin shall be listed in the National Sanitation Foundation (NSF) Standard No. 2. The bin shall be capable of disassembly for storage only when using screwdrivers and wrenches.

2.1.1 Back and sides. The back and sides shall be chrome plated, steel wire.

2.1.2 Shelf. The shelf bottom shall be zinc or chrome plated steel. Plating shall conform to the manufacturer's standard practice and shall be in accordance with NSF Standard No. 2. Bottom platform shelf shall be zinc, chrome plated or enameled steel or wood which has been painted or varnished.

2.1.3 Casters. Each bin shall have removable 5 inch diameter casters 1-1/2 inches wide. The casters shall be the ball bearing swivel type.

2.2 Workmanship. All workmanship shall conform to food commercial practice.

3. Quality assurance. The contractor is responsible for assuring that the items furnished to the Government conform to all the requirements specified in referenced documents and herein. The contractor shall furnish a certificate of compliance certifying that the items being furnished comply with the stated requirements. The Government reserves the right to inspect the items to verify the certification and may reject any item or lot of items when it is determined that:

a. Any required component or design characteristic is missing or not as specified herein.
b. Any aspects of design, construction, assembly, function or finish is not in accordance with good commercial practice.
c. Packaging, packing, palletization and marking is not as specified.

4. PACKAGING.

4.1 Packaging. Casters shall be removed from the display bins. Wheel bearings shall be lubricated with manufacturer's recommended lubricant containing a rust inhibitor. Exposed, uncoated surfaces shall be cleaned by process C-1 and shall be coated with type P-6 preservative of MIL-P-116. The casters shall then be individually wrapped in waterproof kraft paper or greaseproofed, waterproofed barrier material. The wrap shall be secured with tape or twine. The wrapped casters shall be placed in the bin.

4.2 Packing. Packing shall be domestic or export as specified (see 5.2).

4.2.1 Domestic packing. Display bins, packaged as specified, shall be packed in a snug-fitting shipping container conforming to class 1 or 2, style G of PPP-B-640. Display bins shall be cushioned, blocked and braced as required, to prevent movement or damage during shipment and storage. Each shipping container shall be closed and reinforced in accordance with the appendix of PPP-B-640.

4.2.2 Export packing. Display bins, packaged as specified, shall be packed in a wood-cleated plywood or nailed wood shipping container conforming to overseas type of PPP-B-601 or class 2, style 2 or 4, type 3 load of PPP-B-621. Display bins shall be cushioned, blocked and braced as required, to prevent movement or damage during shipment and storage. Each shipping container shall be closed, waterproofed and strapped in accordance with the appendix of the applicable container specification.

4.3 Palletization. When specified (see 5.2), display bins, packed as specified, shall be palletized on a 4-entry way pallet in accordance with load type I or Ia (as applicable) of MIL-STD-147.

4.4 Marking. In addition to any special marking requirements required by the contract or purchase order, shipping containers and unitized loads shall be marked in accordance with MIL-STD-129.

5. NOTES

5.1 Intended use. The bin is intended for use as a display and storage for bagged potatoes and onions.

5.2 Ordering data:

a. Title, number and date of this document.
b. Type of packing required (see 4.2).
c. When palletization is required (see 4.3).

5.3 Source of information for nongovernment association documents.
