COMMERCIAL ITEM DESCRIPTION

SIGN MAKING MACHINE

The General Services Administration has authorized the use of this commercial item description.

1. Intended use. This commercial item description covers a sign making machine that produces signs for display items on sale.

2. Salient characteristics.

2.1 Design and construction. The sign making machine shall be a table mounted model and shall consist of a steel or aluminum frame with a steel bed plate and pressure roller. The sign making machine shall have a pressure control dial for securing sign making material in place while the roller is engaged in printing. The sign making machine shall come with ten metal or wooden "type" fonts and a sufficient amount of magnets or spring clips for locking type on bed plate. The machine shall be capable of producing signs in one or more colors; on different materials, such as cardboard, paper, magnetic sheeting, vinyl acetate, 30 gauge steel, or similar porous or nonporous surface materials; and in sizes ranging from counter strip to approximately 14 inches by 25 inches.

2.2 Components. The following type fonts shall be included in the sign making machine:

1 - 24 pt. in caps and figures, applicable type style
1 - 24 pt. in lower case of applicable type style
1 - 36 pt. in caps and figures, applicable type style
1 - 60 pt. in caps and figures, applicable type style
1 - 72 pt. in caps and figures, applicable type style
2 - 10 line (1-3/4 inch) in capitals, two applicable type styles
2 - 10 line (1-3/4 inch) in lower cases, two applicable type styles
1 - 12 line (2 inch) in figures, applicable style
3 - easel type trays

FSC 3590

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

2.3 Supplies. The following supplies shall be included with the sign making machine:

2 - pounds minimum of spacers
2 - 1/4 pound tubes of black ink
2 - 1/4 pound tubes of red ink
1 - 2 inch inking roller
1 - 3 inch inking roller
1 - ink platen
1 - set of type bars
1 - sign drying rack
24 - magnets or type clips
1 - quart hand cleaner
1 - gallon type cleaner
1 - machine cover
Assorted card blanks
Instructions manual
Type and supplies catalogue

3. Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. Packaging. The sign making machine shall be packaged, packed and marked in accordance with the domestic or overseas requirements of ASTM D 3951, as applicable.

5. NOTES

5.1 Ordering data. Title, number and date of this document.

5.2 Source for nongovernment association documents.

ASTM D 3951 - Standard Practice for Commercial Packaging.

(Application for copies should be addressed to the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.)
