COMMERCIAL ITEM DESCRIPTION

HANDCART, GROCERY, NESTING

The General Services Administration has authorized the use of this commercial item description.

1. CLASSIFICATION

1.1 Classification. This commercial item description covers one type and size of grocery handcart which nests one into the other.

2. SALIENT CHARACTERISTICS

2.1 Design and construction. The handcart frame shall be constructed of heavy gauge tubular steel with an attached, nonremovable, close-mesh, heavy gauge wire basket. The handcart shall have a lower grill (shelf or tray) for large packages or for bulky items. The basket shall be reinforced with a minimum of 6 horizontal supporting heavy gauge, metal bands. The handcart shall be nickel chrome plated with a baked on acrylic coating. The basket shall have a folding baby seat and rear hinged gate. The handle shall be covered with tubular plastic material. The handcart shall have a nesting feature of approximately 10 inches. The minimum basket capacity shall be 10,200 cubic inches grain measurement at level loaded capacity. The minimum total capacity of the handcart shall be 15,000 cubic inches. The overall approximate dimensions of the handcart shall be 38 inches long, 24 inches wide, and 42 inches high.

2.2 Wheels and casters. The handcart shall have two 5 inch minimum diameter rear rigid wheels and two 5 inch minimum diameter front swivel casters. The wheels and casters shall have 1-1/2 inch wide minimum tire treads.

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: Commander, U.S. Army Natick Research, Development, and Engineering Center, ATTN: SATNC-UXT, Natick, MA 01760-5017.

AMSC N/A FSC 7290

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3. QUALITY ASSURANCE

3.1 Certification. The contractor shall certify, and maintain substantiating evidence, that the product offered meets the salient characteristics and requirements of this Commercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

3.2 Metric product. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within specified tolerances using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this Commercial Item Description are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

3.3 Regulatory requirements. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practicable.

4. PACKAGING

4.1 Packaging, packing, and marking for military agencies. The handcart grocery, nesting shall be packaged, packed, and marked in accordance with the domestic or overseas requirements of ASTM D 3951.

4.2 Civil agencies. The packaging, packing and marking shall be as specified in the contract or order.

5. NOTES

5.1 Intended use. The grocery handcart provides a means of transporting food items and sundry products to checkout counter in self-service stores.

5.2 Acquisition requirements. Acquisition documents must specify the following:

a. Title, number, and date of this document.

5.3 Sources of documents.
