# COMMERCIAL ITEM DESCRIPTION

## WEIGHT, COMMERCIAL SCALE TESTING, 50 POUNDS

The General Services Administration has authorized the use of this commercial item description.

1. Intended use. This commercial item description covers a test weight for measuring the accuracy of scales.

2 Salient characteristics.

2.1 Design and construction The weight shall be "U" shaped with a nonremovable pipe handle between the arms of the "U". The weight shall be one piece cast iron construction with an iron pipe handle. The ends of the pipe shall not be exposed. The weight and handle combined shall weigh 50 pounds ± 2.3 grams.

2.2 Standard compliance. The weight including the pipe handle shall comply with the weight as specified in the National Bureau of Standards Handbook 105-1, class F.

3 Certification The contractor shall certify that the product offered meets the salient characteristics of this description, conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under provisions of the contract.

4. Packaging. The test weight shall be packaged, packed, and marked in accordance with the domestic or overseas requirements of ASTM D 3951, as applicable.

FSC 6670

DISTRIBUTION STATEMENT A. Approved for public release distribution is unlimited
