COMMERCIAL ITEM DESCRIPTION

SHELVING UNIT, THREE STEP, DISPLAY

The General Services Administration has authorized the use of this commercial item description.

1. Intended use. This commercial item description covers a one piece shelving unit that displays sundry items for sale.

2. Salient characteristics.

2.1 Design and construction. The shelving display unit shall be a three step, one-piece unit constructed of reinforced chemical resistant fiberglass. The shelving unit shall have a smooth, glossy, and beige colored finish. The unit shall have an arch shaped indented toe kickplate, approximately 3-1/2 inches high, that is set back approximately 2-1/2 inches from the front of the first step. The shelf steps shall be slanted inwardly for better product stability.

2.2 Dimensions. The approximate dimensions of the shelving unit shall be 48 inches wide by 39 inches deep by 40 inches high. The first step shall rise approximately 12 inches from the base of the unit and the second and third steps shall rise approximately 14 inches each in height. The depth of each step shall be approximately 13 inches.

3 Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under provisions of the contract.

4. Packaging The shelving display unit shall be packaged, packed, and marked in accordance with the domestic or overseas requirements of ASTM D 3951, as applicable.

FSC 7125

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.
