COMMERCIAL ITEM DESCRIPTION

BALER, AUTOMATIC, HORIZONTAL

The General Services Administration has authorized the use of this commercial item description.

1. Intended use. This commercial item description covers an automatic baler to be used for compacting and baling pliable materials.

2. Salient characteristics.

2.1 Design and construction. The baler shall be a floor mounted, horizontal type and shall be hydraulically operated. The baler shall be delivered completely assembled, ready for operating, and with all moving parts fully enclosed. The loading chamber shall have a minimum capacity of 25 cubic feet. The baler shall be capable of producing bales weighing at least 700 pounds each. The baler shall bind each bale with a minimum of five ties. The baler shall have a safety hydraulic relief valve, automatic bale ejector, push button control station, and top loading feed hopper. The baler shall have a minimum 2,100 psi hydraulic operating pressure, approximately 55,000 total pounds ram thrust, and approximately 30 seconds cycle time. The baler shall be equipped with a safety lock mechanism to prevent operation with the feed hopper open. The approximate dimensions of the baler shall be 180 inches long by 50 inches wide by 52 inches high.

2.2 Electrical. The baler shall be equipped with a 7-1/2 to 10 horsepower motor. The baler shall be capable of operating on 220 volts, 60 hertz, 3 phase or 380 volts, 50 hertz, 3 phase power source.

3. Certification. The contractor shall certify that the product offered meets the salient characteristics of this description, conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. Packaging. The automatic horizontal baler shall be packaged, packed, and marked in accordance with the domestic or overseas requirements of ASTM D 3951, as applicable.

5. NOTES

5.1 Ordering data. Title, number, and date of this document.
