DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
System Effectiveness Data System (SEDS) Operational Report	DI-ILSS-80681A

3. DESCRIPTION / PURPOSE

3.1 This report is used to assist in the analysis of reliability and maintainability data of newly developed or enhanced systems and subsystems. The analyses provided by SEDS are used to apprise the acquiring activity of the types, severity, and frequency of failures occurring, and of the status of action being taken by the contractor.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
950123	F/460SS-OSXM		

7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID is applicable when SEDS information (operational) is required on a system or subsystem under test.

7.3 This DID supersedes DI-ILSS-80681.

APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b AMSC NUMBER
	AFDTC 4296	F7102

10. PREPARATION INSTRUCTIONS

10.1 Format. The report shall be on AFDTC Form 4296.

10.2 Content. The report shall consist of the data described in Table I.

TABLE I. Operational record.

BLOCK		ENTRY
1	SYSTEM TYPE	System type or end item of the overall system.
2	SERIAL NUMBER	Serial number or mission number of the end item.
3	DATE (Day, Mo, Yr)	Numeric mission date, by day, month, and year.
4	ACFT TYPE	Aircraft type.
5	TAIL NO	Tail number of the aircraft.
6	FLT TIME	Aircraft flight time - time must be recorded in hours and tenths.

(Continued on Page 2)

DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Block 10, Preparation Instructions (Continued)

TABLE I. Operational record. - Continued

BLOCK	ENTRY
7 TYPE MISSION	Applicable type mission: 1 - contractor testing 2 - development testing 3 - operational testing
8 LOC	Location of testing. Two digit code. Use first two initials (i.e., EG - Eglin; ED - Edwards).
9 SOR	Number of sorties flown.
10 START TIME	The time, to the minute, that the mission started using local military time (i.e., 1500 is 3:00 p.m.).
BLOCK NO	The block or work unit code number for each system or subsystem.
REL CODE	Applicable reliability code: 1 - operated satisfactory 2 - operated with known defect 3 - failed during mission 4 - no test
SYSTEM NAME	The system name or subsystem names will be preprinted on the form for each specific program.
SERIAL NO	Serial number of system or subsystem.
TIME	System turn on time.
TIME	System shutdown time.
TIME	System on time in hours and tenths.
BLANK COLUMNS	Used for specific program requirements; e.g., job control number, failure report number, down time, scheduled time, etc.
MISSION OBJECTIVES/REMARKS	Enter any remarks, comments, test results, etc.
