DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

2. TITLE	1. IDENTIFICATION NUMBER
STOCK NUMBER USERS DIRECTORY (SNUD) RECONCILIATION	DI-MISC-80657

3. DESCRIPTION/PURPOSE

3.1 The reconciliation registers an organization's interest in specific stock numbers and types of management data needed in the Stock Number Users Directory (SNUD) (DO71). This registration allows Air Force Logistics Center (AFLC) to provide tailored automatic distribution of management data on registered stock numbers to meet an organization's needs.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC REQUIRED	6b. GIDEP REQUIRED
880805	F/AFSPACECOM/LKSPO		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 The Stock Number Users Directory reconciliation is applicable to contracts where a contractor is required to convert part numbered supply assets to national stock numbers.

7.3 A copy of reference documents cited below may be obtained as specified in the contract.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F4500

10. PREPARATION INSTRUCTIONS

10.1 Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

10.2 Format. The reconciliation shall be on magnetic tape in punch card format.

10.3 Content. The reconciliation shall contain data as indicated below for each line item reported plus a letter of transmittal. The letter of transmittal shall contain the Stock Record Account Number (SRAN), the type of input records, the type of input media, the type of output media, and the name and automatic voice network (Autovon) telephone number of the point of contact (POC).

Reconciliation of Stock Record Account Number File.
Reconciliation ("BDFR") input is as follows:

Card Column	Data Element	Remarks
1-3	Document Identifier	Enter "BDF".

(continued on page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:38Z
Check the source to verify that this is the current version before use.

10. PREPARATION INSTRUCTIONS (continued):

Card Column	Data Element	Remarks
4	Input Code	Enter "R". Output return through interface with BASE. Output is based on type data registration.
5-6	Blank	Blank
7	Transmission Media Code	Establishes transmission media for one-time distribution of initial reconciliation results. "L" - Mailed listing; "M" - Mailed cards; "D" - Standard Base Supply System (SBSS) tape; "C" - 7 track 800 BPI, BCD tape; "B" - 9 track BPI ASC II tape; "X" - 9 track 1600 BPI EBCDIC tape; "K" - 9 track 1600 BPI EBCDIC tape; "H" - 9 track 6250 BPI, ASCII tape; or "J" - 9 track 6250 BPI, EBCDIC tape. Tape identification is contained in Air Force Manual (AFM) 67-1, Vol I, Part One, Atch B-8. Input of SBSS tape will always result in SBSS tape output. Initial output will always be by mail. For input by other than SBSS tape, if transmission media is "A" Defense Communications System Automatic Digital Network (DCS AUTODIN) or not specified, output shall be by mailed cards ("M").
8-20	Stock Number	Enter National Stock Number (NSN), and Non Cataloged (NC), Non Designated (ND) and Kit (K) numbers only.
21-22	Blank	Blank
23-24	Material Management Code (MMC)	Enter the MMC, if assigned or leave blank. Enter minus signs (--) if data element does not require reconciliation.
25-30	SRAN	Enter the 6-position SRAN as listed in DOD 4000.25-D. For example: FB2300, FN2300, etc. Never leave blank. Only established FB, FD, FE, FK, FN, FX, EY and EZ accounts, and others when specifically authorized by AFLC/MMLP may be entered. For Security Assistance (SA) program countries or other activities without an assigned SRAN, enter the code in cols 25-30 assigned by AFLC/MMLP when authorized to implement in SNUD. For example: FB0002, FB0012, WRD040, SMG04L, etc.

10. PREPARATION INSTRUCTIONS (continued):

Card Column	Data Element	Remarks
31-35	Date	Enter the 5-position Julian date on which add or delete card is prepared; for example: 88300.
36	Disposal Phrase Code	Enter "N" when appropriate, or leave blank. Enter a minus sign (-) if data element does not require reconciliation.
37	Acquisition Advice Code	Not a mandatory element of data.
38	Precious Metals Indicator Code (PMIC)	Enter the 1-digit PMIC or leave blank. Enter a minus sign (-) if data element does not require reconciliation.
39	Automated Data Processing Equipment Code (ADPEC)	Enter the 1-digit ADPEC or leave blank. Enter a minus sign (-) if data element does not require reconciliation.
40	Expendability Recoverability Repairability Code (ERRC)	Enter the 1-digit ERRC code as prescribed in AFM 67-1, Vol I, Part Four, Chap 1. Enter a minus sign (-) if data element does not require reconciliation.
41	Blank	Blank
42	Air Force Equipment Management System (AFEMS)	Enter the 1-digit AFEMS reporting accounting code as prescribed in AFM 67-1, Vol I, Part Four, Chap 1. A blank will be treated as matched.
43-44	Unit of Issue	Enter the 2-digit code as prescribed in in AFM 67-1, Vol I, Part Four, Chap 1. Enter minus signs (--) if data element does not require reconciliation.
45	Quantity Unit Pack (QUP)	Enter the 1-digit code as prescribed in AFM 67-1, Vol I, Part Four, Chap 1. Enter a minus sign (-) if data element does not require reconciliation.
46-48	Source of Supply	Enter the Military Standard Requisitioning and Issue Procedures (MILSTRIP) routing identifier as prescribed in AFM 67-1, Vol I, Part Four, Chap 1. Enter minus signs (--) if data element does not require reconciliation.

10. PREPARATION INSTRUCTIONS (continued):

Card Column	Data Element	Remarks
49-50	Fund Code	Enter the 2-digit code prescribed in AFM 67-1, Vol I, Part Four, Chap 1. If a 2-digit MILSTRIP fund code is used in the base account records instead of the fund code, it will be treated as unmatched and the fund code will be output. A blank on output is considered a match.
51	Asset Status Transaction Reporting Code	Enter the 1-digit (alphabetic or nuneric) code prescribed. A blank will be treated as a match.
52	Munition Data Indicator Code	Enter "Y" if munitions data is recorded in local records or "N" if munitions data is not recorded. A blank in this field will be considered a match and only positive munitions data will be provided if appropriate. NOTE: Col 52 shall be left blank for all Nuclear Ordinance Commodity Management (NOCM) items (MMC "CM").
53	Repairable Item Movement Control (RIMC) Exception Data Code	Enter "Y" if RIMC exception data is recorded on local records or "N" if RIMC exception data is not recorded on local records. A blank will be considered as a match and only positive RIMC data provided if appropriate.
54	Stock Fund Credit Indicator or Blank	Enter the 1-digit code prescribed in AFM 67-1, Vol I, Part Three, Chap 5. A blank or stock fund indicator "D" will be treated as matched if Air Force (AF) central files reflect "D" or blank. Enter a minus sign (-) if data element does not require reconciliation.
55	Shelf Life Code	Enter the 1-digit code prescribed in AFM 67-1, Vol I, Part Four, Chap 1. If this field is left blank, a shelf life code will be output. Enter a minus sign (-) if data element does not require reconciliation.
56	Budget Code	Enter the 1-digit code prescribed.in AFM 67-1, Vol I, Part Four, Chap 1. If the budget code is not known, leave blank. Enter a minus sign (-) if data element does not require reconciliation.

Check the source to verify that this is the current version before use.

10. PREPARATION INSTRUCTIONS (continued):

Card Column	Data Element	Remarks
57	Physical Security Code	Enter the 1-digit code prescribed in AFM 67-1, Vol I, Part Four, Chap 1. Leave blank if physical security code is not known; a physical security code will be output. Enter a minus sign (-) if data element does not require reconciliation.
58	Demilitarization Code	Enter the 1-digit code prescribed in AFM 67-1, Vol VI, Chap 7. A blank will be treated as a match.
59	Unit Price Decimal Locator	Enter one of the following unit price modifiers: "0" - Unit price to nearest dollar (100,000 to 9,999.99). "2" - Unit price to nearest cent ($.01 to $99,999.99). "6" - Unit price to nearest dollar with an implied zero to the right. Enter a minus sign (-) if data element does not require reconciliation.
60-66	Unit price	Must be numeric. For example: A $1.50 unit price will be shown in cols 59-66 as follows: 20000150. Enter minus signs (-------) if data element does not require reconciliation.
67-72	National Motor Freight Code (NMFC) Number	Enter the 6-digit numeric NMFC number prescribed in the NMFC guide, or leave blank. If left blank, the NMFC number will be output, if available.
73-74	Type Cargo Code	Enter the one or two-digit alpha code prescribed in the NMFC guide, or leave blank. If left blank, the cargo code will be output if available.
75	Blank	Blank
76	Airlift Item Code	Enter an "A" or leave blank. Enter a minus sign (-) if data does not require reconciliation.
77	Foam-in place Code "F", "R" or "S"	Enter the 1-digit alphabetic code prescribed, or leave blank.
78-80	Blank	Blank
