DATA ITEM DESCRIPTION

Title: CONTAINER DESIGN RETRIEVAL SYSTEM (CDRS) SEARCH REQUEST

Number: DI-PACK-80683E
AMSC Number: F10329
DTIC Applicable: No
Preparing Activity: 69 (AFLCMC/EZPAA)
Applicable Forms: N/A

Approved Date: 20220708
Limitation: N/A
GIDEP Applicable: No
Project Number: PACK-2022-002

Use/Relationship: The Container Design Retrieval System (CDRS) Search Request is used to identify container designs already in the Government System which can be adapted for a new use. The CDRS is accessible at URL: https://lts.cce.af.mil/CDRS. Its use precludes the design of new specialized containers when suitable containers exist and has a proven history of substantial cost avoidance.

The CDRS is maintained by the Air Force Packaging Technology and Engineering Facility (AFPTEF) at Wright-Patterson AFB, https://www.aflcmc.af.mil/afptef.

a. This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the solicitation.

b. This DID supersedes DI-PACK-80683D.

Requirements:

1. Reference documents. None.

2. Format. The CDRS Search Request shall be in the contractor's format or a CDRS Search Request Fill-In Format which is available on the AFPTEF website, above, or through the CDRS page at https://lts.cce.af.mil/CDRS. Completed requests shall be submitted by email to: CDRS@us.af.mil. Requestors with government Common Access Cards (CACs) can also submit requests through CDRS.

3. Content. The CDRS Search Request shall include the information below. The information furnished to CDRS shall be as complete as practical. Supplementary sketches or drawings of the item to be packaged shall be included if available.

a. Requester's name, address, telephone number, and e-mail address.

b. Date request submitted.

c. Government agency supported (contractor only).

d. Government contract number and government contract officer's name, address, telephone number and e-mail address (contractor only).

e. The nomenclature, part number, and national stock number (NSN) of the item or items to be packaged.

f. Dimensions of item (length, width, height, or diameter).

g. Item weight.

h. Item fragility.

Check the source to verify that this is the current version before use.

i. Department of Transportation hazard class or United Nations (UN) number.
j. Container special handling requirements/constraints (handles, lift rings, forklift, pallet jack).
k. Desired container composition (material).
l. Desired shock mitigation system (foam, wire rope isolators, etc.).
m. Desired opening style.
n. Items per container.
o. Number of containers required.

End of DI-PACK-80683E.
