Paragraph 3.3.2.1.3, line 5 - Delete "one-fourth" and substitute "one-half".

After paragraph 3.3.3.1.3 - Add the following new paragraphs:

3.4 Marking. Marking on each barrel to be applied by the maker on the top head as follows:

(a) When specified (see 6.3), barrels procured for use in packing regulated commodities and meeting the requirements of Department of Transportation shall be marked in accordance with DOT regulations.

(b) Barrels procured by the Government shall be also marked with a US.

(c) When specified (see 6.3), barrels used or procured for packing nonregulated commodities shall be marked with the name or symbol (letters) of the maker.

(d) Size of marking (minimum) 3/4 inch high for head diameters over 17 inches and 1/2 inch high for all others.

3.5 Conflict. When required for regulated commodities and there is a conflict between this specification and the applicable DOT specification (11A and 11B), the supplier or manufacturer shall give the contracting officer a statement in writing about the conflict and obtain instructions before proceeding with the manufacture of the barrel.

Paragraph 4.1, line 6, after "specified". Insert "in contract or order".

Line 6, 7, and 8 - Delete "utilized his own facilities or any commercial laboratory acceptable to the Government," and substitute "Use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government".

PAGE 7

Paragraph 4.2.1 - Delete and substitute:

4.2.1 Component and material inspection. In accordance with 4.1 above, components and material shall be inspected and tested in accordance with all the requirements of referenced specifications and standards unless otherwise excluded, amended, modified or qualified, in this specification or applicable purchase document.

PAGE 8

After paragraph 4.5 - Add the following:

4.6 Examination of preparation for delivery. An examination shall be made to determine that packing and marking comply with the requirements of section 5 of this specification. The sample unit for this examination shall be one container prepared for delivery.

PAGE 9

Paragraph 6.3 - Add a new subparagraph:

(e) When barrels require DOT or other markings (see 3.4 (a) and 3.4 (c).)
