MIL-C-40060/2(GL)

30 December 1970

MILITARY SPECIFICATION SHEET

CABINET, STORAGE, STEEL: MAP REPRODUCTION, SINGLE DOOR, WALL; TYPE II

The complete requirements for procuring the cabinet described herein shall consist of this document and the issue in effect of MIL-C-40060.

REQUIREMENTS:

Dimensions and configuration shall be as shown on figures 1 and 2.

COMPONENTS:

Doors, hinges, handle, positive catch, shelf, and mounting plates shall be as specified herein and MIL-C-40060, as applicable.

CONSTRUCTION:

Cabinet door handle. The handle for operating the closing mechanism shall be made of steel, cast iron, or aluminum. Ferrous material shall be plated or treated to resist corrosion.

Shelf. Shelf shall be height adjustable at not more than 3-inch intervals.

Three way catch. The catch shall be a positive three way, right hand door device. The catch shall engage the cabinet through the top and bottom flanges of the door, and the cam-tongue catch shall engage the door frame.

Mounting plates. The wall cabinets shall each have four mounting plates, 0.074 inch in thickness (No. 14 Gage), made of carbon steel. The plate shall be spot welded to the back inside of the cabinets. Key hole slots conforming to and compatible with those on the mounting plates shall be cut or punched out of the back of the cabinets.
