COMMERCIAL ITEM DESCRIPTION

AMMONIUM NITRATE, TECHNICAL

The General Services Administration has authorized the use of this commercial item description as a replacement for MIL-A-175C, Class 3, for all federal agencies.

1. SCOPE. This commercial item description (CID) establishes the government acquisition requirements for prilled ammonium nitrate to be used as a nitrating agent in explosives.

2. SALIENT CHARACTERISTICS

2.1 Composition. The prilled ammonium nitrate supplied shall be a white, free-flowing material and shall be free from dirt, oil, grease, or any visible impurity. The chemical composition of the ammonium nitrate shall meet the requirements of table I when the supplied product is tested using the methods described in "Reagent Chemicals", American Chemical Society (ACS) Specifications.

TABLE I. Chemical requirements.

Chemical Properties	% by Weight	Limit
Assay (NH_4NO_3)	99.0	Minimum
Moisture	0.15	Maximum
Water-insoluble material	0.18	Maximum
Acidity, as nitric acid	0.02	Maximum
Nitrite	------	Pass test
Sulfate	0.02	Maximum
Chloride	0.02	Maximum

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data that may improve this document should be sent to DLA Aviation, VEB, 8000 Jefferson Davis Highway, Richmond, VA 23297-5616 or e-mailed to STDZNMGT@dla.mil. Since contact information can change, you may want to verify the currency of this address information using the ASSIST database at https://assist.dla.mil.

Check the source to verify that this is the current version before use.

2.2 Sieve analysis. When tested in accordance with ASTM B214, "Standard Test Method for Sieve Analysis of Metal Powders" (DoD adopted), at least 99.9 percent by weight of any selected test specimen shall pass through a 6.3-millimeter (6300 micron) sieve. The sieves used shall comply with either ASTM E11, "Standard Specification for Woven Wire Test Cloth and Test Sieves" (DoD adopted), or ASTM E323, "Standard Specification for Perforated-Plate Sieves for Testing Purposes" (DoD adopted).

3. REGULATORY REQUIREMENTS

3.1 Safety data sheet (SDS). The product manufacturer shall prepare and submit an SDS meeting the requirements of FED-STD-313, "Material Safety Data, Transportation Data and Disposal Data for Hazardous Materials Furnished to Government Activities", and Part 1910.1200 of Title 29 Code of Federal Regulations (CFR).

4. PRODUCT CONFORMANCE PROVISIONS

4.1 Product conformance. The ammonium nitrate provided shall meet the salient characteristics requirements of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale on the commercial marketplace. The government reserves the right to require proof of such conformance.

4.2 Market acceptability. The product offered must have been previously sold either to the government or on the commercial market.

5. PACKAGING

5.1 Preservation, packing, and marking. For acquisition purposes, the products shall be preserved, packed, and marked as specified in the acquisition order (see 6.4(c)).

6. NOTES

(This section contains information of a general or explanatory nature that may be helpful, but is not mandatory.)

6.1 Sources of documents.

6.1.1 Government documents.

a. Copies of the CFR are available online at http://www.ecfr.gov.
b. Copies of federal standards are available online at http://quicksearch.dla.mil.

6.1.2 ACS specifications. Copies of ACS Specifications may be obtained online at https://www.acs.org.

Check the source to verify that this is the current version before use.

6.1.3 ASTM standards. Copies of ASTM standards may be obtained online at http://www.astm.org.

6.2 National stock number (NSN). This CID is associated with NSN 6810-01-091-8676. Other NSNs may also correspond with this document.

6.3 Part or identification number (PIN). The part or identification numbering system is for government purposes and does not constitute a requirement for the contractor. A PIN number of A-A-59476-3 shall be used for tracking purposes.

6.4 Ordering data. Acquisition documents must specify the following information:

a. Title, number, and date of this CID
b. Unit and quantity required
c. Packaging requirements (see 5.1)
