DEFENSE AND PROGRAM-UNIQUE SPECIFICATIONS FORMAT AND CONTENT

All data transmitted between users and the ASSIST Online or ASSIST Quick Search databases now occurs over encrypted connections. Accordingly, the uniform resource locator (URL) for each database has changed from the hypertext transfer protocol (http) to hypertext transfer protocol secure (https). Additionally, the URLs no longer contain ".daps" since that part of the address referred to an obsolete organizational acronym. Throughout MIL-STD-961E, change the ASSIST URLs as follows:

a. Change http://assist.daps.dla.mil to https://assist.dla.mil

b. Change http://assist.daps.dla.mil/quicksearch/ to https://assist.dla.mil/quicksearch/
