MILITARY STANDARD

CONFIGURATION MANAGEMENT

MIL-STD-973, dated 17 April 1992, and INTERIM NOTICE 3, dated 13 January 1995, were canceled 30 September 2000. The EIA-649: "National Consensus Standard for Configuration Management" as adopted by DoD can be used as a replacement since it is almost a complete duplication of MIL-STD-973. Configuration EIA-649 provides the basic configuration management principles and the best practices employed by industry to identify product configuration and effect orderly management of product change.
