COMMERCIAL ITEM DESCRIPTION

BAG, TOOLS AND SPARE PARTS

The General Services Administration has authorized the use of this Commercial Item Description (CID) by all federal agencies.

1. SCOPE. This CID covers the requirements for the bag, tools and spare parts, and is part of the Welding Individual Protective Safety (WIPS) ensemble.

2. CLASSIFICATION.

2.1 Size. The bag shall be one size (OS) fits all.

3. SALIENT CHARACTERISTICS.

3.1 Description. The bag shall have slide fastener closure. The bag shall have two (2) straps for the handles on each side of the closure. The straps length shall be between 20-inches and 24-inches. The bag shall be 16 inch tall, 14-inch wide and 18-inches in length. The zipper shall be in the length wise direction.

3.2 Basic material. The material for the bag shall be a durable woven fabric.

3.2.1 Color. The color shall be as specified in the contract or purchase order and vary based on availability of fabrics. No color shall be reflective, metallic, or neon.

3.3 Requirements. The finished bag shall conform to the physical requirements specified in Table I.

Comments, suggestions, or questions on this document should be sent to trpsptctstandardiz@dla.mil. Since contact information can change, verify the currency of the address information using Acquisition Streamlining and Standardization Information System ASSIST online database https://assist.dla.mil.

FSC 8465

DISTRIBUTION STATEMENT A. Approved for public release. Distribution is unlimited.

3.4 Components.

3.4.1 Thread. The thread used shall be sewn with a commercially acceptable thread.

3.4.1.2 Fastener. The zipper shall be commercially acceptable.

3.4.2 Identification label. All components shall have a commercial identification label sewn in. The label shall be in accordance with MIL-DTL-32075, Type VI Class 1. The commercial label shall contain the following information:

NSN: XXXX-XX-XXX-XXXX
ITEM NAME:
CONTRACT NUMBER:
CONTRACTOR'S NAME:
FIBER CONTENT:
PART NUMBER:

3.5 Construction.

3.5.1 Stitches, seams and stitching. The item shall be stitched securely throughout, with consistent stitch lengths.

3.6 Finished measurements. The finished bag shall conform to measurements as specified in Table I.

TABLE I. Finished measurements, bag, (inches).

Sizes	Length	Width	Height	Strap Width	Zipper Chain Length
OS	18	14	16	1-1/2	26
Tolerance	±1	±1	±1	±1/4	±1/2

3.7 Toxicity. Unless otherwise specified in the contract or procurement documents (see 7.4), the finished bag shall not present a health hazard and shall show compatibility with prolonged, direct skin contact when tested as specified in 3.7.1.

3.7.1 Toxicity test. When the toxicity requirement (see 3.7) can be demonstrated with historical use data, on the finishing treatments used, toxicity testing may not be required (see 7.4).

3.8 Workmanship. The finished bag shall conform to the quality of the product established in this document. The bag shall be free from defects which would affect serviceability, appearance, uniformity, useability, and quality assurance standards defined by the technical data in the procurement documents.

4. REGULATORY REQUIREMENTS. Unless otherwise specified, the offeror/contractor is encouraged to use recovered, recycled, bio based, and environmentally preferable materials to the maximum extent practicable, in accordance with paragraph 23.403, 23.404(b) of the Federal Acquisition Regulation FAR, or the sustainable acquisition of EO 13693; as applicable. (See 7.1.2 and 7.1.4).

5. PRODUCT CONFORMANCE PROVISIONS.

5.1 Product conformance. The bag shall meet the salient characteristics of this CID conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance.

5.2 Market acceptability. The finished bag offered must have been sold to the government or commercial market.

5.3 End item inspection procedures. Sampling for inspection shall be conducted in accordance with ANSI/ASQ Z1.4 - Sampling Procedures and Tables for Inspection of Attributes (see 7.2.3).

5.4 Visual examination. Each finished bag shall be examined for the defects listed in Table II as defined in ASTM D3990. Defects shall not exceed the acceptance criteria (see 5.5).

TABLE II. Visual examination defects.

Material defects: Any hole, cut, tear, permanent fold, pleat, or crease; any spot or stain on outside, discoloration or color not as specified, any serious material defects or objectionable odor.
Closures: Non-functioning zipper.
Stitches, seams and stitching: Loose or tight stitching tension, broken or skipped stitches, needle chew, any part caught in an unrelated operation or stitching, raw edge, thread ends not removed, any seam slippage, re-stitching, pleating or puckering; distorted, open, pulled or snagged stitches, twisted, ragged or inconsistent edge.
Labels: Label(s) missing, incorrect, or illegible.

5.5 Acceptance criteria. Acceptance criteria shall be as specified in the contract or procurement documents (see 7.4).

6. PACKAGING. The preservation, packing and marking shall be as specified in the contract or order (see 7.4).

7. NOTES.

7.1 Source of Government documents:

7.1.1 Copies of Government documents are available online at https://quicksearch.dla.mil.

7.1.2 Federal Acquisition Regulations (FAR) are available online at https://acquisition.gov.

7.1.3 Toxicity testing is outlined in the following references:
Skin Sensitization 406 and Dermal Irritation 404 (https://www.oecd-ilibrary.org/environment/oecd-guidelines-for-the-testing-of-chemicals-section-4-health-effects_20745788?page=1).

Dermal Sensitization (https://www.law.cornell.edu/cfr/text/40/798.4100).
Dermal Toxicity (https://www.law.cornell.edu/cfr/text/40/798.2250).

7.1.4 EPA and EO 13693 information is available online at https://www.epa.gov.

7.2 Source of non-Government documents.

7.2.1 ANSI/ASQ Z1.4 – Sampling Procedures are available online at https://asq.org.

7.2.2 ASTM Standards are available for purchase online at https://www.astm.org.

7.3 Intended use. The Bag, Tools and Spare Parts, is designed specifically for welders and is intended to carry the welding equipment that is part of the WIPS ensemble and used by military male and female welders.

7.4 Ordering data. Acquisition documents should specify the following:

a. Title, number, and date of this CID.
b. Component sizes required (see 2.1).
c. Color required (see 3.2.2).
d. When toxicity testing is required (see 3.7).
e. Product conformance (see 5).
f. Acceptance criteria (see 5.5).
g. Packaging requirements (see 6).

7.5 Key words.
