COMMERCIAL ITEM DESCRIPTION

KNIFE, FOLDING, COMBAT, AUTOMATIC

The General Services Administration has authorized the use of this commercial item description by all Federal Agencies

1. SCOPE. This Commercial Item Description (CID) covers ultra-lightweight, compact, push-button automatic folding knives designed for general utility and potential tactical applications by military, law enforcement, and emergency rescue personnel.

2. CLASSIFICATION/PART OR IDENTIFICATION NUMBER (PIN). This CID uses a classification system which is included in the PIN as shown in the following example (see 7.1).

2.1 Blade style indicator. Knives are classified by blade style as specified in Table I.

TABLE I. Blade styles.

Style Indicator	Blade style
01	Drop-point
02	Tanto
03	Spear
04	Wharncliffe
05	Scimitar
06	Reverse Tanto
07	Opposing Bevel

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data that may improve this document should be sent to: DLA Weapons Support, ATTN: VAI, P.O. Box 3990, Columbus OH 43218–3990, or email fluidflow@dla.mil. Since contact information can change, you may want to verify the currency of the address information using the ASSIST Online database at https://assist.dla.mil.

AMSC N/A FSC 1095

DISTRIBUTION STATEMENT A. Approved for public release: distribution is unlimited.

Check the source to verify that this is the current version before use.

2.2 Blade length indicator. Knives are classified by blade length as specified in Table II.

TABLE II. Blade length.

Blade length indicator	Blade length range (in.)
S	3.25 – 3.50
L	>3.50 – 3.75

2.3 Handle material. Knives are classified by handle material as specified in Table III.

TABLE III. Handle material.

Handle material indicator	Material
01	Metal
02	Non-metal

3. SALIENT CHARACTERISTICS

3.1 Functional performance.

3.1.1 Opening mechanism. Items shall employ a push-button or slide-button automatic folding mechanism for blade deployment.

3.1.2 Locking security. The locking mechanism shall securely lock the blade the open positions, preventing accidental closure during use.

3.1.3 Carry method. Items shall include a reversible clip deep-pocket carry.

3.1.4 Lanyard hole. Items shall include a lanyard hole in the handle for secure attachment.

3.2 Physical characteristics.

3.2.1 Dimensions.

3.2.1.1 Overall length (open). When open, items shall have an overall length of approximately 7.5 to 8.5 inches.

3.2.1.2 Overall length (closed). When closed, items shall have an overall length of approximately 5.5 inches maximum, to allow for practical carry.

3.2.1.3 Blade length. Blades shall be approximately 3.25 to 3.75 inches.

3.2.1.4 Blade thickness. Blades shall be approximately 0.05 to 0.25 inches thick.

3.2.1.5 Weight. Unpackaged items shall weigh 3.2-5.2 ounces.

3.2.2 Blade.

3.2.2.1 Material. Blade shall be constructed of high-carbon steel with a minimum Rockwell hardness of 58 HRC to ensure edge retention and durability.

Check the source to verify that this is the current version before use.

3.2.2.2 Blade style. Blade styles shall be as indicated in Table I. Blade profile shall be suitable for general utility and cutting tasks.

3.2.2.3 Coating. A non-reflective and corrosion/scratch-resistant coating shall be used to minimize reflection and provide protection against environmental factors.

3.2.2.4 Serration. When specified, a section of the blade shall be serrated.

3.2.3 Handle.

3.2.3.1 Material. Material options for the handles are specified in Table III. Handles shall be constructed of durable material, such as machined aluminum, composite, or high-strength polymer with a matte finish for a secure grip and corrosion resistance.

3.2.3.2 Ergonomics. The handle shall be designed for a comfortable and secure grip, even when wet or gloved.

3.2.4 Color. Items shall be black, ranger green, cobalt black, or other non-reflective color.

3.3 Marking. Items supplied to this CID shall be marked with the manufacturer's standard commercial PIN.

3.4 Recycled, recovered, or environmentally preferable, or biobased materials. Recycled, recovered, or environmentally preferable, or biobased materials should be used to the maximum extent possible provided that the material meets or exceeds the operational and maintenance requirements, and promotes economically advantageous life cycle costs.

3.5 Workmanship. Items shall be free from defects in materials and workmanship which could impair performance, safety, or durability. All edges shall be smooth and free of burrs. The blade shall be properly centered when closed.

4. REGULATORY REQUIREMENTS. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with 22.403 of the Federal Acquisition Regulation (FAR).

5. PRODUCT CONFORMANCE PROVISIONS.

5.1 Product conformance. The products provided shall meet the salient characteristics of this CID, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and shall be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

5.2 Certification. Certification must be done with the procuring activity's approval. The contractor shall certify that the product offered meets the salient characteristics of the description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

6. PACKAGING. Preservation, packing, and marking shall be as specified in the contract or purchase order.

7. NOTES

7.1 PIN. The PIN should be used for Government purposes to buy commercial products to this CID. See Section 2 for PIN format examples.

7.2 Commercial and Government Entity (CAGE) code. For ordering purposes, inventory control, and submission of these knives to DLA Weapons Support Columbus under the Parts Management Advisor Team (PMAT) evaluation program, CAGE code 58536 should be used.

7.3 Source of documents.

FEDERAL REGULATIONS

FAR - Federal Acquisition Regulations (FAR)

(Copies of these documents are available online at www.acquisition.gov.comp/far/index.html.)

7.4 Ordering data. The contract or purchase order should specify the following:

a. CID document number, revision, and CID PIN.
b. Product conformance provisions.
c. Packaging requirements.

7.5 Commercial products. As part of the market analysis and research effort, this CID was coordinated with the following manufacturers of commercial products. At the time of CID preparation and coordination, these manufacturers were known to have commercial products that would meet the requirements of this CID. (NOTE: This information should not be considered as a list of approved manufacturers or be used to restrict acquisition to only the manufacturers shown.)

Manufacturer's CAGE Manufacturer's Name and Address

7.6 Part number (P/N) supersession data. These CID PINs supersede the following MFR's P/Ns as shown. This information is provided to assist in reducing proliferation in the Government inventory system.
