DATA ITEM DESCRIPTION

Title: CRAFT ACCEPTANCE TEST INDEX

Number: DI-MISC-81630
AMSC Number: N7460
DTIC Applicable:
Office of Primary Responsibility: N/PMS377
Applicable Forms:
Approval Date: 20010801
Limitation:
GIDEP Applicable:

Use/Relationship: The Craft Acceptance Test Index provides a complete listing of all Craft Industrial Test Procedures to be conducted during a craft test program.

a. This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task required as delineated in the contract.

Requirements:

1. Format. The Craft Acceptance Test Index shall be presented in the Contractor's format.

2. Content. The Craft Acceptance Test Index shall list by test number and title all contractor and Government-provided stage 2 through 7 shipboard industrial test procedures to be conducted during the Craft Test Program. The Craft Acceptance Test Index shall be comprised of the following parts:

2.1 Title/Cover sheet. The Title/Cover Sheet shall contain a clear and direct statement as to the nature of the material to follow in the Craft Acceptance Test Index. The Title/Cover sheet shall include the following information:

a. Title; i.e., Craft Acceptance Test Index
b. Craft identification; i.e., craft hull number
c. Index release date
d. Index report number
e. Contractor/preparatory name and address
f. Contract number (when applicable)

2.2 Revision Record. The revision record shall describe each change that is made to a revised page. It shall be in tabular format. The revision record shall include the following elements:

DISTRIBUTION STATEMENT A: APPROVED FOR PUBLIC RELEASE; DISTRIBUTION IS UNLIMITED.

Check the source to verify that this is the current version before use.

a. Test procedure number
b. Issue number
c. Description of revision, i.e., addition, deletion, modification
d. Cause for the revision, i.e., Test Change Proposal (TCP) number, Test Problem Report (TPR) number, Engineering Change Proposal (ECP) number, etc.

2.3 Index Listing. The Index Listing shall be tabular and include the following information for each test procedure:

a. Test procedure number
b. Test procedure title
c. Test procedure revision and change level
d. Test procedure preparation responsibility (contractor or Government)
e. Test conduct responsibility (contractor or Government)
f. Test requirement reference (specification section)

2.4 Index Listing Sort. The primary sort for the listing shall be presented by test procedure number sequenced by using the five-digit Expanded Ship Work Breakdown Structure (ESWBS) or the NAVSEA Group (publication 0900-LP-039-9010)(i.e., 000,100,200,300,400,500,600,and 700) as applicable. Within each ESWBS Group the test procedure numbers shall be sequenced in order by SWBS SUBGROUP and ELEMENT (i.e., 242,243,244) or five-digit ESWBS, test stage number, and test serial number.

End of DI-MISC-81630.
