Use/relationship: The Installation and Checkout (INCO) Spares Listing provides information on the description, part number, supplier, quantity, unit cost, and extended cost of INCO Spares. INCO Spares are spare parts identified for use during installation and testing of equipment to reduce lost productive time due to acquisition time for replacement spare parts. The INCO Spares list provides the latest listing of INCO Spares and their costs, and lists those items that are going to be purchased in support of equipment installation and testing.

This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the contract.

This DID supersedes DI-SESS-81619.

Requirements:
