1. SCOPE: This standard limits the type, size and capacity of Reels and Cans required for storage, shipping, projection or editing of motion picture film. It should not be confused with spools or cores used in connection with raw stock motion picture film.

2. NOTES: a. Specification MIL-R-214 and applicable amendments (if any) form a part of this document and all construction, dimensions and materials shall be in accordance therewith.

b. Photographic Film Reels and Cans (16MM and 35MM sizes), required by the Military Services shall be procured in accordance with this standard in the capacities indicated. Reels and cans of different capacities may be procured from local funds for research and development purposes and for special applications; however, they shall neither be stored nor issued for general supply.

Copies of specifications, standards, drawings, and publications required by contractors in connection with specific procurement functions should be obtained from the Procuring Activity or as directed by the contracting officer.

NOTICE: This standard has been approved by the Department of Defense and is mandatory for use by the Departments of the Army, the Navy, and the Air Force.

APPROVED 16 SEP 1957
