Tolerance ± 5%.

MATERIAL: Mortar and pestle shall be of cast iron in accordance with Federal Specification QQ-I-666, Grade I or II.

DESIGN: Mortar has a conical shaped cavity rounded at the bottom.

Base shall be flat with a diameter large enough to provide a stable resting surface.

Pestle shall be designed to afford hand comfort in grinding. The grinding end shall be rounded to facilitate grinding.

Mortar and pestle shall be in accordance with Federal Specification NNN-M-560, Type IV.

FINISH: Inside surface of mortar and face of the pestle shall be ground smooth.

NOTES:
1. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
2. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
3. Referenced documents shall be of the issue in effect on date of invitations for bid.

(B) ENTIRE STANDARD REVISED

APPROVED 22 September 1960 REVISED (A) 31 May 1967 (B) 1 MAR 1982

USER ACTIVITIES: ARMY - CE, MI

REVIEWER ACTIVITIES: ARMY - ME, MD
NAVY - YD
AIR FORCE - 03

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
