MATERIAL: Wood shall be kiln-dried basswood.

Cork shall be heavy gage containing not more than 5 percent moisture.

Hinges and fixtures shall be brass.

Paper shall be heavy and white and shall be glazed on one side.

FINISH: Outside of the box shall be painted olive-drab enemel in accordance with Federal Specification TT-E-527 and color X34087 of FED-STD-595.

DESIGN: Box shall be assembled with neatly mitred and splined joints. Hinges and hooks shall be of suitable size and weight, neatly affixed to provide secure closure.

The inside at the bottom shall be completely lined with cork securely anchored to the bottom, to provide a resilient pinning base for specimens.

The entire interior, including the cover, but excluding the sides of the cover shall be lined with a pestproof paper lining, properly mitred and beveled to provide a fit sufficiently tight to prevent entrance of pest when box is closed. Paper shall be placed so that the glazed side is exposed.

NOTES: 1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard, provided such variations do not affect performance and are not in conflict with material requirements as specified herein.

2. Referenced documents shall be of the issue in effect on date of invitations for bid.

APPROVED 28 June 1963 REVISED (A) 31 MAR 1981

(A) ENTIRE STANDARD REVISED

This standard has been approved by the Department of the and is mandatory for use by that activity. All other military activities are required to employ this standard where suitable.
