COMMERCIAL ITEM DESCRIPTION

CUSHION, HEEL/ELBOW

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers a protective heel/elbow cushion suitable for use as a protection against pressure sores.

Salient characteristics:

The cushion shall be a preassembled protective heel/elbow cushion for single patient use.

The cushion shall consist of an expandable rib-knit band with integral cushioning material that will afford comfortable protection to an approximate 5 inch by 8 inch area of either the heel or elbow. The integral cushioning material shall be permananently attached or removable. The band shall fit snugly without use of straps.

There shall be no seams underneath the integral cushioning material in order to provide maximum comfort during use. The ends of the expandable band shall be securely stitched to eliminate unraveling.

The cushion shall be sized to fit an adult and shall be completely washable.

The cushion shall be furnished clean and free of oil, grease, dirt, or stains.

Workmanship. The heel/elbow cushion shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing forty-eight cushions, packaged in pairs as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 1.0 (percent defective) and an inspection level of II. The unit of product for examination purposes shall be one heel/elbow cushion as specified in this description.

Defects.

Cushion has seams underneath the integral cushioning material.

Ends of the expandable band are not securely stitched to eliminate unraveling.

Cushion not free of oil, grease, dirt, or stains.

Sampling for tests. Sampling for tests including dimensional test, shall be conducted in accordance with MIL-STD-105, with an AQL of 2.5 (percent defective) and an inspection level of S-1. The unit of product for test purposes shall be one heel/elbow cushion.

Tests

Test for fit. The heel/elbow cushion shall be placed on both the ankle and arm of an adult person. The cushion shall fit snug and comfortably on both the heel and elbow, and allow sufficient movement of the extremity. Any deficiency in the fit shall constitute a defect.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

INSTRUCTIONS In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
