MILITARY SPECIFICATION

HOSES AND HOSE ASSEMBLIES, NONMETALLIC:

RUBBER, LIQUID FUEL

This interim amendment is approved for use within the US Army Belvoir Research, Development, and Engineering Center, Department of the Army, with MIL-H-370F, dated 8 October 1986.

PAGE 4

2.1.1, under STANDARDS, FEDERAL, add:

"FED-STD-595 - Colors."

PAGE 8

3.4.1.2, delete in its entirety and substitute:

"3.4.1.2 Cover. The cover shall be fabricated from material as specified in 3.3.2.2, and shall be of uniform thickness not less than 5/64 inch. The cover color shall be sand matte, in accordance with FED-STD-595, color chip 30277."

PAGE 10

3.6, lines 5 and 6, delete the sentence "The letter shall be molded . . . 0.50 inch high.", and substitute the following new sentence: "The letters shall be a minimum of 0.18-inch high.".

Line 8, after "cover color.", add the following new sentences: "Each hose shall be marked with a longitudinal black stripe not less than 0.125-inch and extending the full length of the hose. The label may be within the longitudinal stripe provided the stripe is not less than 0.20-inch greater than the height of the letters and the letters are in contrast to the stripe color. The label may substitute for the longitudinal stripe, provided it is continuous and extends the full length of the hose and is black in color."
