COMMERCIAL ITEM DESCRIPTION
CLIPBOARD
(PLASTIC, RECYCLED PLASTIC & ALUMINUM)

This General Services Administration has authorized the use of this commercial item description by all federal agencies.

1. Scope: This Commercial Item Description covers recycled plastic and aluminum clipboard files which are used for holding papers, and serves as a writing medium.

2. Classification:

Type:	I.	Clipboard, Aluminum
	II.	Clipboard, Recycled Plastic
	III.	Clipboard, Acrylic
Class:	A.	Six (6) Inch Metal, Flat Spring Clip
	B.	Four (4) Inch Metal, Wire Spring Clip
Sizes:	1.	Letter
	2.	Legal
	3.	As Specified

3. Salient Characteristics:

3.1 Type I clipboard shall consist of a metal, flat spring clip in accordance with paragraph 3.5 of this document which shall be securely attached to an aluminum board. The clip shall be attached and centered along the upper part of the board in accordance with normal commercial practice. The color shall be as specified in the contract or ordering document.

3.2 Type II clipboard shall consist of a metal, flat or wire spring clip in accordance with paragraphs 3.5 and 3.6 of this document which shall be securely attached to a recycled plastic board. The board shall have a minimum content of 25% post-consumer recovered materials. The clip shall be attached and centered along the upper part of the board in accordance with normal commercial practice. The color shall be as specified in the contract or ordering document.

3.3 Type III clipboard shall consist of a metal, wire spring clip in accordance with paragraph 3.6 of this document which shall be surely attached to a neon translucent acrylic board. The clip shall be attached and centered along the upper part of the board in accordance with normal commercial practice. The color shall be as specified in the contract or ordering document.

3.4 Colors. The clipboards shall be provided in the following colors as specified in the contract or ordering document: Red, Blue, Pink, Yellow, or Camouflage.

Note: The camouflage pattern is designed in the following manner: Dark Green, Greenish Brown, Light Green and Black in no set pattern or in accordance with normal commercial practice.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration, Federal Supply Service, Engineering Branch, 26 Federal Plaza, New York, NY 10278.

3.5 Flat Spring Clip. The clamp of the clip shall not be less than 139.7 mm (5.5 inches) wide, and shall open to a minimum of 25.4 mm (1 inch). The clip shall be capable of holding securely any number of sheets of paper, from one sheet to full capacity 25.4 mm (1 inch).

3.5.1 The spring, base and clamp shall be firmly held in place by a rivet or an appropriate pin. The clamp shall be fabricated with a concavity having an eye or cutout 9.5 mm ± 3.175 mm (.374 inch ± .125 inch) in diameter. The clamp shall not flex when pressure is exerted to open the clip. The base of the clip shall have, as an integral part, an extension with a centered eye or cutout having a 9.5 mm ± 3.175 mm (.374 inch ± .125 inch) diameter. This extension shall extend sufficiently beyond the upper edge of the board to permit the board to be suspended from a flat, vertical surface. The exposed surfaces of the clip shall be smooth, with all corners and edges being rounded and smooth.

3.6 Wire Spring Clip. The clamp of the clip shall not be less than 107.95 mm (4.25 inch) wide, and shall open to a minimum of 12.7 mm (0.5 inch). The clip shall have plastic grips at the corners to retain papers. The clip shall be capable of holding securely any number of sheets of paper, from one sheet to full capacity 12.7 mm (0.5 inch).

3.6.1 The spring, base and clamp shall be firmly held in place by a rivet or an appropriate pin. The base of the clip shall have, as an integral part, a centered eye or cutout of having at least a 5.08 mm ± 3.175 mm (.20 inch ± .125 inch) diameter. The eye or cutout shall permit the board to be suspended from a flat vertical surface. The exposed surfaces of the clip shall be smooth, and all corners and edges shall be rounded and smooth.

3.7 Board Dimensions. The board dimensions shall be as specified on Table I. A tolerance of ± 4.762 mm (± 0.762 inch) will be permitted in the overall length and width of the boards.

Table I. Board Dimensions
Size 1 - Letter Size 228.6 mm × 317.5 mm (9 × 12.5 inches)
Size 2 – Legal Size 228.6 mm × 393.7 mm (9 × 15.5 inches)
Size 3 – As Specified 228.6 mm x 314.8 mm (9 x 12 inches)

3.8 Finish. All metal clip components shall be non-corrosive, with a shiny metallic or flat black finish, except for the pivot nail, which may be made from hardened aluminum. The aluminum board for Type I clip boards shall be semi-gloss with a lacquered finish.

3.9 The manufacturer's name or trademark shall be exhibited on the clip board. Placement of these permanent markings shall be at the option of the manufacturer, provided they are prominently displayed.

3.10 Workmanship. Rivets, if used, shall be set in accordance with normal commercial practice, including but not limited to exhibiting a well-formed, firm, flush seating. The clip boards shall be free from defects or imperfections of manufacture which may affect their durability, appearance, serviceability, or which may present a hazard to the user.

4. Regulatory Requirements: The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4.1 Contractor Certification. The contractor shall certify that if polystyrene is used in the manufacture of this item, it shall contain a minimum of 25 percent post-consumer recovered materials in accordance with the 40 Code of Federal Regulations Part 247, Comprehensive Guideline for Procurement of Products Containing Recovered Materials; Final Rule. The government reserves the right to require proof of such conformance prior to first delivery and therefore as may be otherwise provided for under the provisions of the contract.

5. Quality Assurance Requirements:

5.1 Product Conformance. The products provided shall meet the salient characteristics of this commercial item description. Quality of the product sold to the government shall be equal to or better than the quality of the product sold by the manufacturer in the commercial market. The government reserves the right to require proof of such conformance.

6. Packaging:

6.2 Preservation, packing, palletization and marking shall be specified in the contract or order.

7. Notes:

7.1 **Part Identification Number (PIN). The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.**

This example describes a specified size, acrylical clipboard, with a four inch metal wire spring clip.

A-A-3175 III B 3 Example of reference part number: A-A-3175IIIB3

Size: 1 – Letter
2 – Legal
3 – As Specified

Class: A – Six Inch Metal, Flat Spring Clip
B – Four Inch Metal, Wire Spring Clip

Type I – Type I – Clipboard Aluminum
II – Type II – Clipboard, Recycled Plastic
III – Type III – Clipboard, Acrylic
