COMMERCIAL ITEM DESCRIPTION
EASEL, TRIPOD DISPLAY

The General Services Administration has authorized the use of this commercial item description by all federal agencies.

1. **Scope:** This Commercial Item Description covers aluminum tripod display easels.

2. **Salient Characteristics:**

2.1 The tripod shall be a telescoping, light weight, portable, display easel.

2.2 The tripod shall be adjustable in working height from not less than 87.63 cm (34.5 inch) and not greater than 163.2 cm (64.25 inch).

2.3 The tripod and pad rests shall be capable of supporting a maximum load of 18.2 kg (40.1 lb.).

2.4 The tripod shall be composed of three two-stage telescopic legs, one spreader bar assembly, one top bracket, two pad rests, three rubber feet, three telescope locking assemblies, and one pad bar.

2.5 The two-stage telescopic legs shall be composed of tubular aluminum alloy of sufficient strength to support the maximum load. Each leg shall have an outer leg and an inner leg that can be extended or retracted into the outer leg.

2.6 The locking mechanism, when engaged, will rigidly hold the inner leg in place relative to the outer leg.

2.7 The spreader bar assembly attached to the three outer legs, when opened, will hold the legs a fixed distance apart from one another to form a stable base.

2.8 The pad rests shall be adjustable so that they may slide along the length of the outer leg. The pad rests shall be capable of being locked in place and remain in position under the nominal load.

2.9 The overall length of the fully compressed tripod shall not exceed 91.4 cm (36.0 inch).

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration, Federal Supply Service, Engineering Branch, 26 Federal Plaza, New York, NY 10278.

2.10 The pad bar shall be an assembly of two aluminum extrusions, approximately 71.1 cm (28.0 inch) in length, connected via two spring brackets for use in securely clamping paper or pads.

2.11 The pad bar shall have two large thumb screws and one small bracket for use in rigidly attaching the assembly to the top bracket of the tripod.

2.12 The tripod shall be constructed of materials that are resistant to corrosion. These materials shall include, but not limited to, anodized aluminum and coated steel alloys.

2.13 The unit shall come packaged with written and diagramatic instructions for proper assembly of the tripod and attachment of the pad bar.

2.14 Workmanship: Tripods shall be securely assembled to ensure components remain attached to one another and shall be free of defects and imperfections which may adversely affect appearance, durability, or serviceability.

3. Regulatory Requirements: The offeror / contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. Quality Assurance Provisions:

4.1 Product Conformance. The products provided shall meet the salient characteristics of this commercial item description. Quality of the product sold to the government shall be equal to or better than the quality of the product sold by the manufacturer in the commercial market. The government reserves the right to require proof of such conformance.

5. Packaging: Preservation, packing, marking and palletization shall be as specified in the contract or order.

6. Notes:

6.1 Source of Documents. Issues of the following documents, in effect on the date of invitation for bids or request for proposal, form a part of this document to the extent specified herein.

6.1.1 Federal Acquisition Regulation (FAR) may be obtained from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

6.2 National Stock Number Listing (NSNs). The following is a list of NSN's assigned which correspond to this Purchase Description. The list may not be indicative of all possible NSN's associated with this (PD).
