COMMERCIAL ITEM DESCRIPTION

HOOK AND EYE, DOOR

The General Services Administration has authorized the use of this commercial item description (CID), for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers steel wire hooks and eyes intended for securing doors.

2. SALIENT CHARACTERISTICS

2.1 Salient characteristics: The hook and eye shall consist of a hook and eye assembly and an additional eye similar to that shown in Figure 1. The eyes shall have self-tapping wood screw threads. The overall dimensions of the hooks shall be specified in the contract or order.

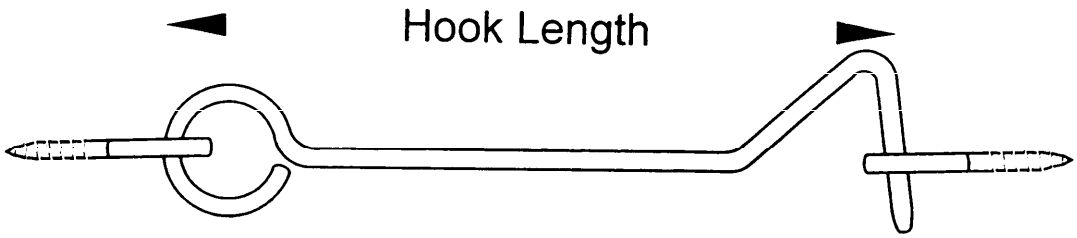

Figure 1

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor St., Fort Worth, TX 76102

Check the source to verify that this is the current version before use.

2.2 Finish. The hook and eye assembly shall have either a bright steel finish or zinc coating in accordance with ANSI/BHMA A156.18. Specifics shall be specified in the contract or order.

2.3 Identification marking. The hook and eye assembly shall be marked with the manufacturer's name or trademark. The use of an adhesive-backed label shall be acceptable.

2.4 Workmanship. The hook and eye assembly shall be free from defects which may impair performance, or appearance.

2.5 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

3. REGULATORY REQUIREMENTS

3.1 Recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Product Conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, and be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

5. PACKAGING

5.1 Preservation, packing, and marking. Preservation, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Sources of non-Government documents.

ANSI/BHMA standards are available from the Builders Hardware Manufacturers Institute, 11 West 42nd Street, New York NY 10036.

6.2 Ordering data. Ordering activities should specify hook size. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number, and date of this commercial item description.
b. Size required (see 2.1).
c. Preservation, packing, and marking desired.

6.3 National Stock Number (NSN): The following NSN's correspond to the hook and eye assemblies under this commercial item description.

NSN	Size (inches)	PART NUMBER
5340-00-200-8577	2.0	8577-2
5340-00-200-8581	4.0	8581-4
5340-00-243-6321	1.5	6321-1
5340-00-243-3224	3.0	3224-3
5340-00-664-7027	2.5	7027-2
