AA-F-363
AMENDMENT 1
AUGUST 11, 2003

FEDERAL SPECIFICATION

FILING CABINET, SECURITY, MAPS AND PLANS, GENERAL FILING AND STORAGE

This amendment was developed by the General Services Administration, Federal Supply Service, based upon currently available technical information.

The General Services Administration has authorized the use of this amendment, which forms a part of Federal Specification AA-F-363D, dated June 1, 2001, by all federal agencies.

Page 1

Paragraph 1.2.1, under class 6, Type II, add "Size VI".

Page 5

Add the following new paragraph

"3.3.3.4 Class 6, Size VI Aircraft safe. The safe shall have minimum inside dimensions of 15 inches in height, 12 inches in width and 9 inches deep. The safe shall open from the top. The safe shall have a lid attenuation device to limit the speed of lid closure and prevent injury. The lid handle shall meet the requirements of paragraph 3.3.5.1. The container shall have ½ inch mounting holes drilled 1 inch from each corner in the bottom of the container. In lieu of the weight requirements of Paragraph 3.3.4, the size VI safe shall have a maximum weight of 60 pounds."
