PAGE 6

3.6.2, line 1, in title: Delete "and water absorption".
Line 3: Delete "and water absorption".

TABLE III: Delete the "Percent water absorption by weight (maximum)" requirements.

PAGE 8

4.2.1, line 4, Delete "ualified" and substitute "qualified".

PAGE 11

* TABLE VIII, following "Number of strands" Add "Yarns per strand (min) -3.4.1 - visual 1/"

Opposite "Circumference", in Test Method column: Delete "6000" and substitute "6003".

* Opposite "Extractable matter (chloroform soluble material)", in Test Method column Add "2/" after "2611".

Delete "Water absorption" test requirements in entirety.

* Add new footnote "2/ Extractable matter shall be determined in accordance with Test Method 2611 except for the following: The specimen shall be put in a weighing bottle and placed (uncovered) in an oven (circulating or convection) at a temperature of 100 ± 5°C (210-215°F) for 1 hour, cooled in a dessicator, and weighed. This shall be considered the dry weight of the specimen. The weight of the dried specimen shall be recorded and used for "0" in the calculation of results"

PAGE 12

* 5.3, line 3: Delete "road" and substitute "load".

Changes from previous issue. The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content inspection of the marginal notations and relationship to the last previous issue.
