MILITARY SPECIFICATION

GYROSCOPE, RATE, SWITCHING, TYPE MC-1

This amendment forms a part of MIL-G-25591E(USAF), dated 10 September 1981, and is approved for use within the Department of the Air Force and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 1

2.1 Delete "first paragraph" and add: "2.1 Government documents."

Add: "2.1.1 Specifications, standards, and handbooks. The following specifications, standards, and handbooks form a part of this specification to the extent specified herein. Unless otherwise specified, the issues of these documents shall be those listed in the issue of the Department of Defense Index of Specifications and Standards (DODISS) and supplement thereto, cited in the solicitation."

Delete address on lines 3 and 4 of beneficial comments block and add: "Oklahoma City Air Logistics Center/MMEDO, Tinker AFB OK 73145-5990."

PAGE 2

Add: "2.2 Other publications. The following document(s) form a part of this specification to the extent specified herein. Unless otherwise specified, the issues of the documents which are DOD adopted shall be those listed in the issue of the DODISS specified in the solicitation. Unless otherwise specified, the issues of documents not listed in the DODISS shall be the issue of the nongovernment documents which is current on the date of the solicitation.

ASTM D3951 Packaging, Commercial

(Application for copies should be addressed to: ASTM, 1916 Race St, Philadelphia PA 19103).

(Nongovernment standards and other publications are normally available from the organizations which prepare or which distribute the documents. These documents also may be available in or through libraries or other informational services.)

Add: "2.3 Order of precedence. In the event of a conflict between the text of this specification and the references cited herein (except for associated detail specifications, specification sheets or MS standards), the text of this specification shall take precedence. Nothing in this specification, however, shall supersede applicable laws and regulations unless a specific exemption has been obtained."

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

PAGE 10

Add: "4.1.1 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material."

PAGE 11

Delete "4.4.2," "a", "b", "c" and "d".

PAGE 19

Delete "4.6.23.4" and add new "4.6.23.4 Test records. Throughout this test, the contractor shall maintain adequate test records and shall keep them available for inspection upon request by the local government representative. As a minimum, the records shall include the following in accordance with MIL-STD-781: An operating sheet, log failures, failure report, equipment repair sheet, failure tag, and failed-part summary analysis."

PAGE 21

Delete Section 5 in its entirety and add:

"5 PACKAGING

5.1 Preservation. Preservation shall be level A, C, or Industrial, as specified (see 6.2).

5.1.1 Level A.

5.1.1.1 Cleaning. Gyroscope shall be cleaned in accordance with process C-1 of MIL-P-116.

5.1.1.2 Drying. Gyroscope shall be dried in accordance with process D-4 of MIL-P-116.

5.1.1.3 Preservation application. Not applicable.

5.1.1.4 Unit packaging. Unless otherwise specified by the contracting activity, each gyroscope shall be packaged in quantity unit packs of one each in accordance with Method ICI of MIL-P-116. Each gyroscope shall be placed in a PPP-B-636 fiberboard container weather resistant, with sufficient cushioning material between bag and unit container of a type, density, and thickness to insure shock transmission does not exceed peak values in G's established for the gyroscope when completed packs are subjected to the rough handling drop tests of MIL-P-116.

Check the source to verify that this is the current version before use.

5.1.2 Level C. Each gyroscope shall be clean, dry, and individually packaged in a manner that will afford adequate protection against corrosion, deterioration, and physical damage during shipment from supply source to the first receiving activity.

5.1.3 Industrial. The Industrial preservation of gyroscope shall be in accordance with ASTM D3951.

5.2 Packing. Packing shall be level A, B, C, or Industrial as specified (see 6.2).

5.2.1. Level A. Gyroscope packaged as specified in 5.1.1 shall be packed in shipping containers conforming to PPP-B-601, Styles A or B, Class overseas, unless otherwise specified by the contracting activity. Insofar as practical, exterior shipping container shall be of uniform shape, size minimum tare and cube consistant with the protection required.

5.2.2 Level B. Gyroscope packaged as specified in 5.1.1. shall be packed in shipping containers conforming to PPP-B-636, class weather-resistant, unless otherwise specified by the contracting activity. Other requirements as specified in 5.2.1 apply.

5.2.3 Level C. Packing shall be applied which affords adequate protection during domestic shipment from the supply source to the first receiving activity for immediate use. This level shall conform to applicable carrier rules and regulations.

5.2.4 Industrial. The packaged gyroscope shall be packed in accordance with ASTM D3951.

5.3 Marking. In addition to any other markings required by the contract or order (see 6.2), interior and exterior containers shall be marked in accordance with MIL-STD-129.

Delete "6.6".
