COMMERCIAL ITEM DESCRIPTION

# PROTECTOR, TROUSERS, PISTOL HOLSTER

This General Services Administration has authorized the use of this Commercial Item Description in preference to MIL-P-22295.

Abstract. This commercial item description covers the requirements for one type and size trousers protector. The protectors are intended to be worn with the leather pistol holster by military police of the Marine Corps and part of the Marine police equipment set.

Salient Characteristics. The trouser protector shall consist of two pieces of basic material each for body, pistol holster side retainer and bottom support, stitched together with binding. The raw edges of the item shall be bound stitched (type 304) with cotton tape. (See Figure 1). The two pieces for the side retainer shall be bound together with cotton tape at the top and bottom. The bottom support pieces shall be bound together at the top raw edge. The two curvature body pieces shall be bound starting at the top and continuing around the entire protector with the side retainer and the bottom support positioned on the front part at notches and each caught in the binding (See Figure 1). Two (2) Grommets shall be provided for attaching the protector to the pistol holster. The finished protector shall be in accordance with the dimension stated on Figure 1 and capable of being worn with the leather pistol holster.

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Defense Personnel Support Center, Clothing and Textiles Directorate, Attn: DPSC-FSSD, 2800 South 20th Street, Philadelphia, PA 19101-8419, by using the Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

Materials:.

**Basic material:** The basic material shall be cloth, uniform twill, cotton, 8.0 ounce, white shade 3006, combed 1x1 yarn. As an alternate; cloth, twill, polyester/cotton 6.8 ounce white shade 3053 may be used.

**Tape:** The tape for binding the raw edges of the protector shall be cotton, bleached, 5/8 inch wide, stay bindings, herringbone twill weave.

**Grommets:** Grommets with washers shall be brass, plain type, bright finish.

**Thread:** The thread shall be cotton conforming to A-A-52094, soft finish, bleached white, ticket No. 40, 3 ply for all seaming and stitching. As an alternate thread: Polyester, cotton covered, white shade, size 70 may be used.

Shademarking. The component parts shall be marked to insure a uniform shade throughout the protector. Any method of shade marking may be used except:

(a) Corrosive metal devices.
(b) Adhesive type tickets which show discoloration or leave traces of paper or adhesive mass to the material upon removal of the tickets.

Patterns. The government shall furnish pattern. The pattern generally provides for a seam allowance of 1/8 inch for joining seams. Commercial patterns may be used in lieu of the government furnished pattern provided they conform to the cited design and finished measurements.

Sizes and Measurements. The finished protector shall conform to the measurements on Figure 1.

Workmanship. After completion, the finished protector shall be thoroughly cleaned, and all loose thread, and foreign matter removed. The item shall be free from irregularities or defects which adversely affect appearance, performance, reliability or durability, such as cuts, holes or damaged material, incomplete stitch closures, improper taping, loose straps, skipped stitching, damaged, omitted or inadequate stapling of grommets and washers.

Product Demonstration Model. When required, offerers shall submit samples of their intended production. The Product Demonstration Model will consist of units independently developed. Product Demonstration Models will be analyzed and evaluated by the government. Evaluation criteria and basis for award are contained in the solicitation. Product Demonstration Models will be retained by the government. One (1) Product Demonstration Model approved by DPSC under the resultant contract will serve as a manufacturing standard for the corresponding production items delivered under this contract. Offerers are advised that the Product Demonstration Model does not relieve the successful offerer of his responsibility to perform in accordance with the Commercial Item Description specified above.

Quality Assurance

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices. The government reserves the right to require proof of such conformance prior to the first delivery and thereafter as may be otherwise provided for, under the provisions of the contract. Reliance on contractor QA systems shall not relieve the contractor of the responsibility of ensuring that all products or supplies submitted to the government for acceptance comply with all requirements of the contract.

Examination. Trouser Protector lots shall be inspected in accordance with "Sampling Procedures and Tables for Inspection by Attributes", ANSI/ASQC Z1.4, published by the American Society for Quality Control.

Visual Examination. The trouser protectors shall be examined for the defects listed below. The lot size shall be expressed in units of two hundred. The sample unit is one trouser protector. The inspection level shall be II and the acceptable quality level (AQL), expressed in terms of defects per hundred units, shall be 1.5 .

Defects. The protector shall be examined for the following defects: any hole, cut, tear, color not as specified; any spot or stain (outside); thread ends not removed; tape not tightly woven, frayed edges; Grommets with washers broken, split, malformed, misplaced or omitted, seams/stitching open, broken or skipped stitches, wrong seam or stitch type, loose tension, puckering of fabric on seams, measurement of item not as specified.

Binding: Improperly or loosely applied, overlapped ends misplaced, ends of binding not overlapped.

Grommets with Washer: Not securely clinched, clinched too tightly, improperly set, i.e., one or both washers on front of protector instead of underside, location not within specified tolerance, not proper size specified.

Dimensional Examination. The finished trouser protector shall conform to the dimensions specified. Any dimension that is not within the established tolerance shall be classified as a defect. The sample unit shall be one trouser protector; the inspection level shall be S-3 and the AQL, expressed in terms of defects per hundred units, shall be 4.4*. *AQL's were reduced by 1/3.

Packaging Examination. The fully packaged shipping containers shall be examined in accordance with defects listed below. The lot size shall be the number of shipping containers in the inspection lot. The inspection level shall be S-2 and AQL, expressed in terms of defects per hundred units, shall be 2.5 .

| EXAMINE | DEFECT |
|---|---|
| Marking (exterior and interior) | Omitted; incorrect; illegible; of improper size, location, or method of application |
| Materials | Any component missing, damaged, or not as specified |
| Workmanship | Inadequate application of components, such as: incomplete closure of container flaps, loose strapping, improper taping, or inadequate stapling |
| Content | Number of items in container is more or less than required |
| | NSN shown on one or more items not as specified on shipping container |
| Palletization | Length, width, or height exceeds specified maximum requirements |
| | Pallet type not as specified |
| | Load not bonded as specified |

# STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

## INSTRUCTIONS

1. The preparing activity must complete blocks 1, 2. 3, and 8. In block 1, both the document number and revision letter should be given.
2. The submitter of this form must complete blocks 4, 5, 6, and 7.
3. The preparing activity must provide a reply within 30 days from receipt of the form.

NOTE: This form may not be used to request copies of documents, nor to request waivers, or clarification of requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
