T-M-001203(GSA-FSS)
AMENDMENT-2
June 27, 1973
SUPERSEDING
Amendment-1
April 28, 1971

AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

MOPS, DUSTING (RENTAL SERVICE)

This amendment was developed by the General Services Administration, Federal Supply Service, Standardization Division, Washington, DC 20406, based upon currently available technical information. The General Services Administration has authorized this amendment as a part of Interim Federal Specification T-M-001203(GSA-FSS) dated May 1, 1968.

PAGE 3

Paragraph 3.2, line 5: Delete 8.0 and substitute "13.0".

Paragraph 3.3, Delete in its entirety and substitute:

"3.3 Treating compound. The dust control compound for treating the mopheads and brushhead covers shall consist of a paraffinic or napthalenic base petroleum product, and a suitable aromatic when required. The compound shall contain not more than 3.0 percent water and no animal, or vegetable oil, or any ingredient that will permit or cause it to heat or ignite spontaneously, or cause injury to the skin, and shall have an Underwriters Laboratories Fire Hazard Rating between 0 and 20."

PAGE 4

Paragraph 3.3.1, Delete in its entirety.

Paragraph 4.3, Delete in its entirety and substitute:

"4.3 Sampling and inspection for lot acceptance. Sampling and inspection shall be performed in accordance with MIL-STD-105. For sample purposes, a lot shall consist of all items of the same type, class and size submitted at the beginning of a contract period. Subsequent sampling and inspection at any time during a contract period will be at the option of the contracting officer."
