COMMERCIAL ITEM DESCRIPTION

MEASLES, MUMPS AND RUBELLA VIRUS VACCINE, LIVE, USP

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-M-37143 which is cancelled.

Salient Characteristics:

Shall be Measles, Mumps and Rubella Virus Vaccine, Live, USP.

Shall be lyophilized in which the measles virus will be derived from Enders' Attenuated Edmonston Strain, the mumps virus derived from the Jeryl Lynn (B Level) Strain, and the rubella virus derived from the Wistar RA 27/3 Strain.

The vaccine shall be in accordance with the requirements of the USP.

The diluent accompanying the vaccine shall be suitable for rehydrating the vaccine.

The vaccine shall be supplied as one immunizing dose in a vial and sufficient diluent to deliver 0.7 ml shall be supplied in a vial.

Materials used in the manufacture of the vaccine shall be of pharmaceutical grade.

Workmanship. The vaccine and diluent shall be free from defects which detract from their appearance or impair there serviceability.

Unit. Package (PG). One package containing 10 vials of vaccine and 10 vials of diluent, each separately packaged, as specified, constitutes one unit.

AMSC\NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: Material shall be supplied under constant refrigeration 2° - 8° C (35° - 46° F).

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6505-00-165-6519	MEASLES, MUMPS AND RUBELLA VIRUS, VACCINE, LIVE, USP, Lyophilized, Single Dose, 10s
