COMMERCIAL ITEM DESCRIPTION

PAD, COTTON (Eye Pads)

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification DDD-P-50.

This commercial item description describes an eye pad used for inhospital and outpatient use as an external or a post operative ophthalmic dressing, as a protective covering for the eye, inherently nonirritating and non-injurious.

Salient characteristics: Pad, Cotton (Eye Pads), sterile, individual package, white, oval shaped, not less than 1-7/8 inches (4.72 cm) wide, not less than 2-3/8 inches (7.22 cm) long.

Type I - Nonwoven or gauze covered top and bottom with a filler of absorbent cotton, rayon, or combination thereof, edges shall not be frayed or loose.

Type II - Pad shall be gauze covered with a cotton filler, top and bottom covered with a single thickness of gauze. Cotton filler shall meet the requirements of Purified Cotton, USP, except for fiber length and absorbency. When tested in accordance with the USP, not less than 40% of the fibers by weight shall be 12.5 mm or greater in length, and not more than 20% by weight shall be 6.25 mm or less in length. When tested for absorbency in accordance with the USP, the cotton shall submerge in 10 seconds or less and shall retain not less than 20 times its weight of water. The gauze shall meet the requirements of Type I Absorbent Gauze, USP. The finished pad shall have a minimum weight of 1.0 grams when conditioned in accordance with Section 4 of Federal Test Method Standard 191. Each pad shall be packaged and sealed in a suitable paper envelope which shall maintain the sterility of its contents unless opened or damaged. Cotton shall be made from fully bleached, fine filament, purified new or new reworked cotton such as comber noils or card strips and shall not contain cotton liners or cotton which has been reworked from yarns, thread or fabric. The cotton shall be substantially free of lumps, oil spots, foreign odor and foreign matter.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/ suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
