COMMERCIAL ITEM DESCRIPTION

BECLOMETHASONE DIPROPIONATE INHALATION AEROSOL

The General Services Administration has authorized the use of this Commercial Item Description.

This drug is an anti-inflammatory steroid in a metered-dose aerosol canister that may be used in the chronic treatment of bronchial asthma.

SALIENT CHARACTERISTICS: This Commercial Item Description applies to all unit-of-use package sizes of this drug that are produced according to customary commercial practice. Each canister contains beclomethasone dipropionatetrichloromonofluoromethane clathrate having a molecular proportion of beclomethasone dipropionate to trichloromonofluoromethane between 3:1 and 3:2. Each actuation delivers from the mouthpiece a quantity of clathrate equivalent to 42 mcg of beclomethasone dipropionate. Each canister shall be packaged with an oral adapter mouthpiece. Materials used in manufacture shall be of a pharmaceutical grade. Expiration dating shall be not less than 18 months remaining at time of delivery to the Government, and may range up to 60 months, as deemed appropriate by the contracting officer.

CONTRACTOR CERTIFICATION: The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

REGULATORY REQUIREMENTS

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local ordinances, statutes, and regulations.

Recovered Materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

PRESERVATION, PACKAGING, PACKING, LABELING, AND MARKING: Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior packaging quantities and labeling and marking shall be as specified in the contract and/or order.
