COMMERCIAL ITEM DESCRIPTION

MINERAL OIL, LANOLATED, WATER DISPERSIBLE

The General Services Administration has authorized the use of this commercial item description.

This commercial item description describes Mineral Oil, Lanolated, Water Dispersible.

Salient characteristics. Shall be clear, oily liquid containing not less than 90 percent light mineral oil, and, in addition, shall contain a fat soluble, dewaxed fraction of USP Lanolin in a liquid form, Polyethylene glycol 200 dilaurate, and a suitable perfume. May contain a suitable coloring agent and color stabilizer. Shall assay to contain not less than 90 percent light mineral oil when assayed by a suitable, accurate and reproducible method. The finished preparation shall be not less than 0.868 kg per liter and not more than 0.881 kg per liter at 25°C, when determined by means of a Westphal Balance, pycnometer, or other suitable method giving comparable results. Shall have an apparent surface tension of 33.0 to 33.7 dynes per cm, when determined at 21° to 23°C, using a semiautomatic Fisher Surface Tensiomat, or by another suitable method giving comparable results. Shall have a refractive index of 1.4752 plus or minus 0.0020 when determined at 20°C, using a Bausch and Lomb Abbe-3L Refractometer, or equivalent instrument giving comparable results. The results shall be corrected for temperature, as follows:

Above 20°C - Add 0.00036 per degree
Above 20°C - Subtract 0.00036 per degree

All ingredients shall be of a pharmaceutical grade.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Bottle (BT). One bottle containing 237 ml as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract of purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the government. The government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/ suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
