MIL-P-36248(DM)
6 August 1964

MILITARY SPECIFICATION

POTASSIUM PHOSPHATE, DIBASIC, ANHYDROUS, ANALYZED REAGENT, 1/4 lb (113.4 Gm)

1. SCOPE

1.1 This specification covers Potassium Phosphate, Dibasic, Anhydrous, in accordance with the requirements of the U.S.P. for reagent grade "Potassium Phosphate, Dibasic".

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein:

SPECIFICATIONS

Federal

PPP-B-636	Box, Fiberboard.
PPP-C-186	Containers, Packaging and Packing for Drugs, Chemicals, and Pharmaceuticals
PPP-T-76	Tape, Pressure-Sensitive Adhesive Paper, Water Resistant (for Carton Sealing).

FSC 6810

STANDARDS

Military

MIL-STD-105 Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129 Marking for Shipment and Storage.

(Copies of specifications and standards required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposal shall apply.

U. S. PHARMACOPOEIAL CONVENTION, INC.

Pharmacopeia of the United States.

(Application for copies should be addressed to the Mack Printing Company, Easton, Pa.).

3. REQUIREMENTS

3.1 Material. Shall be in accordance with the tests, standards, and requirements of the U.S.P., including any supplements or revisions thereto, for Reagent Grade Potassium Phosphate, Dibasic, and in addition, shall meet the following requirements:

3.1.1 Description. Shall be a white powder.

3.2 Weight of contents. Filled immediate containers shall contain an average weight of 1/4 lb (113.4 Gm) and no one immediate container shall contain less than 107.7 Gm, when tested as specified in 4.3.2.

3.3 Workmanship. The product and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of the product subjected to the same manufacturing operation and filled into final containers.

4.2 Sampling. Sampling shall be conducted in accordance with Standard MIL-STD-105, with an acceptable quality level (AQL) of 1.0 percent defective for major defects and 2.5 percent defective for minor defects.

4.3 Tests.

4.3.1 Tests shall be performed to determine compliance with all requirements of this document and all referenced documents.

4.3.2 Weight of contents. Weight of contents shall be determined by a suitable method.

5. PREPARATION FOR DELIVERY

5.1 Preparation for delivery of the product shall be as specified herein and shall be in accordance with all applicable requirements of Specification PPP-C-186, dated 11 December 1961, together with deletions or additions as indicated herein:

5.1.1 Immediate containers. Each immediate container shall comply with the following classification:

GROUP A	CLASS 1	TYPE e	STYLE 2	GRADE 1 or 2
CLOSURE A or B			SEAL A or B	

5.2 Labeling. Labeling shall be in accordance with the applicable regulations and shall include the information required below.

5.2.1 Immediate containers. Each immediate container label shall bear the following information. However, the information is not required to appear in the sequence indicated.

(a) the item identification designated as "POTASSIUM PHOSPHATE, DIBASIC, ANHYDROUS, ANALYZED REAGENT"

(b) the quantity of contents designated as "1/4 lb (113.4 Gm)"

(See additional labeling on Page 4)

Check the source to verify that this is the current version before use.

(c) the stock number

(d) the lot or control number

(e) the name and address of the manufacturer. When the manufacturer is not the contractor, the name and address of the contractor shall also appear.

When both names are placed on the label, the following designation shall precede the names:

"MFR" for the manufacturer and
"CONTR" for the contractor

(f) a listing of the requirements of the U.S.P.

If actual test findings are stated on the label, they shall fall within the requirements of the U.S.P.

5.3 Packaging.

5.3.1 Unit of issue. One (1) bottle, as specified, constitutes one unit of issue.

5.3.2 Unit package. At the option of the contractor, each unit shall be packaged as specified in 5.2.5.

5.3.3 Intermediate package. The number of units of issue specified in table I, column 2, for Procedure Code No. 4, indicated in column 1, shall be packaged in an intermediate package constructed in accordance with the applicable paragraph referenced in column 3, except that partitions shall not be required when unit package is furnished.

5.4 Packing. The number of units contained in the intermediate packages and total number of units of issue for the applicable procedure code, indicated in column 4, shall be overpacked in an exterior container, constructed in accordance with the applicable paragraph referenced in column 5 (level B), or column 6 (level A), for the level of protection specified in the procurement document. Bursting strength of carton shall be in accordance with special requirements in table I of Specification PPP-B-636, in lieu of bursting strength specified in the applicable paragraph referenced in column 5 (level B). In addition, in line 10 of 5.4.4, delete "IV" and substitute "III; or PPP-B-636, type I, class 2; at end of 5.4.4.1, add "Case liner shall not be required for fiberboard boxes."; add the following new paragraph: "5.4.4.1.1 Closure.

Check the source to verify that this is the current version before use.

Closure of wood boxes shall be in accordance with appendix of applicable box specification. Closure of each fiberboard box shall be as specified in the appendix of Specification PPP-B-636. In addition, all seams, including manufacturer's joint, shall be closed by tape conforming to the requirements of Specification PPP-T-76. The tape shall be not less than 2 inches wide. Three strips shall be applied to both top and bottom so that all seams and joints shall be covered their full length. Tape applied over the lengthwise seams shall extend a minimum of 2 inches onto each of the end panels. Tape applied over the end edge seams shall extend a minimum of 2 inches along the side and top, and side and bottom panels."

5.5 Marking.

5.5.1 Unit package. When furnished, each unit package shall bear the same information as required for the immediate container.

5.5.2 Intermediate package. Each intermediate package shall be marked in accordance with Standard MIL-STD-129. When labels are utilized, waterproofing shall be required only when applicable carton is fabricated of water-resistant material. Lot (control) number, contract or purchase order number, and name of contractor shall be shown.

5.5.3 Exterior containers. Exterior containers shall be marked in accordance with Standard MIL-STD-129. The letter "L" shall precede the Federal stock number. One space shall be allowed between the letter "L" and the first digit of the stock number. The terms "Stock Number" or "FSN" shall not be indicated. Lot (control) numbers shall be shown.

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Number and date of this specification.

(b) Selection of applicable levels of packing. (see 5.4).

6.2 This specification does not include all types, classes, grades, sizes, etc., of the commodity indicated by the title of this specification, or which are commercially available, but is intended to cover the types, etc., which are normally procured to meet Military requirements.
