DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use or sell any patented invention that may in any way be related thereto.

NOTICE: This standard was approved by John Wilson of the Air Force and Navy Departments on the 1st September, 1949. This standard is mandatory for use by the Departments of the Air Force and Navy. The Government reserves the right to change or revise the contents of this standard at any time without obligation to notify any holders of copies of this standard. Proposed changes by industry, Government agencies, or the general public are encouraged, and should be submitted to the Standardization Division, Directorate of Procurement and Production, Wright-Patterson Air Force Base, Ohio. Comments should be identified by the paragraph number and date of this standard to which they pertain, and should recommend specific changes. Proposed changes should be dated and should be accompanied by sufficient explanation and substantiating data to permit full consideration within 90 days from date of receipt. Comments received after that date will be considered when this standard is reviewed.
