TIER I ADOPTION NOTICE

SISO-STD-013-2014, Standard for Common Image Generator Interface (CIGI) was adopted on 22 August 2014 for use by the Department of War (DoW). Proposed changes by DoW activities must be submitted to the submitted to the CIGI Product Support Group (PSG). DoW activities must be members to actively vote on the generation of new standards and support existing standards. The Simulation Interoperability Standards Organization (SISO) standards are available to all free of charge. Information regarding this technical standard may be obtained electronically from .

SISO is an international organization dedicated to the promotion of modeling and simulation interoperability and reuse for the benefit of a broad range of modeling and simulation communities, including developers, procurers, and users world-wide. SISO-STD-013-2014 provides for interoperability across real-time image generators and host systems through a common method for communications. CIGI can be used for any visual situational awareness activity.

Custodians:
Army – AVN
Navy – AS
Air Force – 01

Adopting Activity:
OSD – SE
(Project MOSS-2026-012)

Reviewing Activities:
Army – AV, MI
Navy – CG, CH, EC, MC, NM, SA
Air Force – 10, 11, 19, 20, 27
DLA – GS
