Ⓐ

MATERIAL: The material shall be polytetrafluoroethylene with a steel insert.

DESIGN: The polytetrafluoroethylene rods shall be as dimensioned in the table and shall contain a fully enclosed steel insert for stiffness, but capable of being bent to various forms for use as powered stirrers.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

APPROVED 26 JUL 1982 REVISED Ⓐ 31 OCT 1988

USER ACTIVITIES: ARMY - MD, DN

REVIEWER ACTIVITIES: ARMY - ME
AIR FORCE - 03

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document
