MATERIAL: The jars and lids shall be made of polyethylene, (low density).

DESIGN: The jars shall be cylindrical shape with a broad base for good stability. The lids shall be molded to have a friction fit with the jars diameter.

NOTES:
1. Items differing from this military standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
2. Referenced documents shall be of the issue on date of invitation for bids.

USER ACTIVITIES:

REVIEWER ACTIVITIES: ARMY - MD
NAVY - OS
AIR FORCE - 03

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
