MATERIAL: Stopcock barrels shall be of borosilicate glass in accordance with ASTM E438, Type I, Class A or B. Stopcock plugs shall be of glass in accordance with the above specification or polytetrafluoroethylene in accordance with Federal Specification L-P-403.

DESIGN: Glass stopcock barrels and plugs shall be in accordance with Federal Specification DD-S-720. Stopcock barrels shall provide a leak proof fit with stopcock plug with which they are originally supplied.

USE: Stopcocks with side tubes attached at an oblique angle provide maximum sealing for either high pressure or vacuum.

NOTES:
1. Procurement document for glass stopcock barrels and plugs is DD-S-720.
2. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
