DATA ITEM DESCRIPTION

Title: Item Unique Identification (IUID) Marking and Verification Report

Number: DI-MGMT-81858
Approval Date: 20120112
AMSC Number: N9240
Limitation: N/A
DTIC Applicable: No
GIDEP Applicable: No
Office of Primary Responsibility: SH/SEA 04L
Applicable Forms: N/A

Use, Relationship:

The Item Unique Identification (IUID) Marking and Verification Report is a tabular list which provides the data resulting from IUID marking activities such as: physical asset marking, registration, verification, inventory audits, quality audits, and other asset lifecycle activities. A key attribute for the report is the Verification column which indicates (Pass/Fail) for each IUID marked item that is verified.

This Data Item Description (DID) contains format and content preparation instructions for the data product generated by the specific and discrete task requirements delineated in the contract.

This DID is applicable in a contract which contains a requirement for marking parts and equipment with IUID data matrix labels.

Requirements.

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and the dates of applicable amendments, notices and revisions, shall be as cited in the contract.

2. Format. The IUID Marking & Verification Report shall be in Contractor's format.

3. Content. The IUID Marking & Verification Report shall be present as specified in MIL-STD-130 and shall also contain:

a. Unique Item Identifier (UII)
b. UII Type (Construct)
c. Enterprise Identified (EID)
d. EID Type (CAGE/NCAGE, DUNS, etc)
e. Original Equipment Manufacturer (OEM) Part Number
f. Serial Number
g. Equipment Nomenclature (name and type)
h. National Stock Number (NSN)
i. Activity/Event
j. Activity/Event Date
