DATA ITEM DESCRIPTION

Title: Repair Parts Report

Number: DI-MGMT-81868
AMSC Number: N9274
DTIC Applicable: N/A
Office of Primary Responsibility: SH/NSWC
Applicable Forms: N/A

Approval Date: 20120802
Limitation: N/A
GIDEP Applicable: N/A

Use/relationship: The Repair Parts Report will provide the Government with the information needed to monitor repairs and delivery of repaired parts.

This DID contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

Requirements:

1. Format. The Repair Parts Report shall be in the Contractor's format.

2. Content. The Report shall contain a list of parts undergoing repair and it shall also identify the following information for each part repaired:
   a. Name
   b. Serial number
   c. Source (where shipped from)
   d. Status of repairs shall be identified as applicable:
      (1) Repair Not In-Process
      (2) Repair In-Process, or
      (3) Repair Complete
   e. Initial projected delivery date
   f. Actual shipping date for the completed part

2.1 The Report shall contain a description of evaluations conducted, failure modes determined and repairs affected.

2.2 The Report shall contain cumulative cost of evaluation and repair, to reflect the total repair cost for completed repairs.

2.3 The Report shall also identify:
   a. Ceiling amount for the Contract Line Item Number (CLIN).
   b. Funded amount for the CLIN.
   c. Contract Modification number on which the funded amount is based.
   d. Cumulative expenditure amount by CLIN as of the report date.
   e. Total monthly expenditure amount for that month, including labor, a list of labor categories, labor hours, and fully burdened labor rates.
