**DATA ITEM DESCRIPTION (DID)**

**Title: ENGINEERING RELEASE RECORD (ERR) (MIL-STD-3046)**

**Number:** DI-SESS-81882 **Approval Date:** 28 February 2013
**AMSC Number:** 9303 **Limitation:** N/A
**DTIC Applicable:** No **GIDEP Applicable:** No
**Office of Primary Responsibility:** A/ARDEC(AR)
**Applicable Forms:** DD FORM 2617

**Use/Relationship:** The ERR provides a listing of newly approved configuration documentation (both initial release and subsequent revisions of previously released documentation). The ERR is used to officially authorize the use of newly approved configuration documentation.

This DID contains the format, content and preparation instructions for the data product resulting from the work task specified in the solicitation.

This DID is approved for use by the US Army to support the Army interim standard MIL-STD-3046, which will be canceled when a suitable non-government standard is developed or until two years from the date of the standard. When MIL-STD-3046 is canceled, this DID will also be canceled.

**Requirements:**

1. Reference documents. The applicable issue of any documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation, or for non-DODISS listed documents as stated herein.

2. Content. The ERR shall be prepared in accordance with MIL-STD-3046. Other formats and submittal means are acceptable provided the data content requirements of MIL-STD-3046 are met.

3. The following references may be useful in defining content: MIL-HDBK-61A Configuration Management Guidance and ANSI/EIA-649B National Consensus Standard for Configuration Management.

(Copies of ANSI/EIA-649B are available online at www.techamerica.org/ or from TechAmerica, 601 Pennsylvania Ave., NW, North Building, Ste 600, Washington DC 20004-2650.)
