DATA ITEM DESCRIPTION (DID)

Title: AS BUILT CONFIGURATION LIST (ABCL) (MIL-STD-3046)

Number: DI-SESS-81885 **Approval Date:** 28 February 2013
AMSC Number: 9306 **Limitation:** N/A
DTIC Applicable: No **GIDEP Applicable:** No
Office of Primary Responsibility: A/ARDEC(AR)
Applicable Forms: N/A

Use/Relationship: An As Built Configuration List (ABCL) shows the as-built configuration specific to each individual end item delivered under contract. The list will be used to monitor contractor compliance with contractual hardware and software configuration requirements and as a baseline for continuous updating throughout the lifecycle of the item.

This DID contains the format, content and preparation instructions for the data product resulting from the work task specified in the solicitation.

This DID is approved for use by the US Army to support the Army interim standard MIL-STD-3046, which will be canceled when a suitable non-government standard is developed or until two years from the date of the standard. When MIL-STD-3046 is canceled, this DID will also be canceled.

Requirements:

1. Reference documents. The applicable issue of any documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation, or for non-DODISS listed documents as stated herein.

2. Content. The ABCL shall be in the contractor's format.

   2.1 The report shall contain the following:

   a. Nomenclature
   b. Part number and revision
   c. Serial Number
   d. Lot Number
   e. Manufacture Date
   f. Manufacturer (CAGE Code and/or Name)
   g. Vendor contract number
   h. Next Higher Assembly Part Number and Serial Number
   i. Indenture Level
   j. Approved ECPs
   k. Approved Request for Variance (RFVs)
   l. Software part number and revision as applicable
