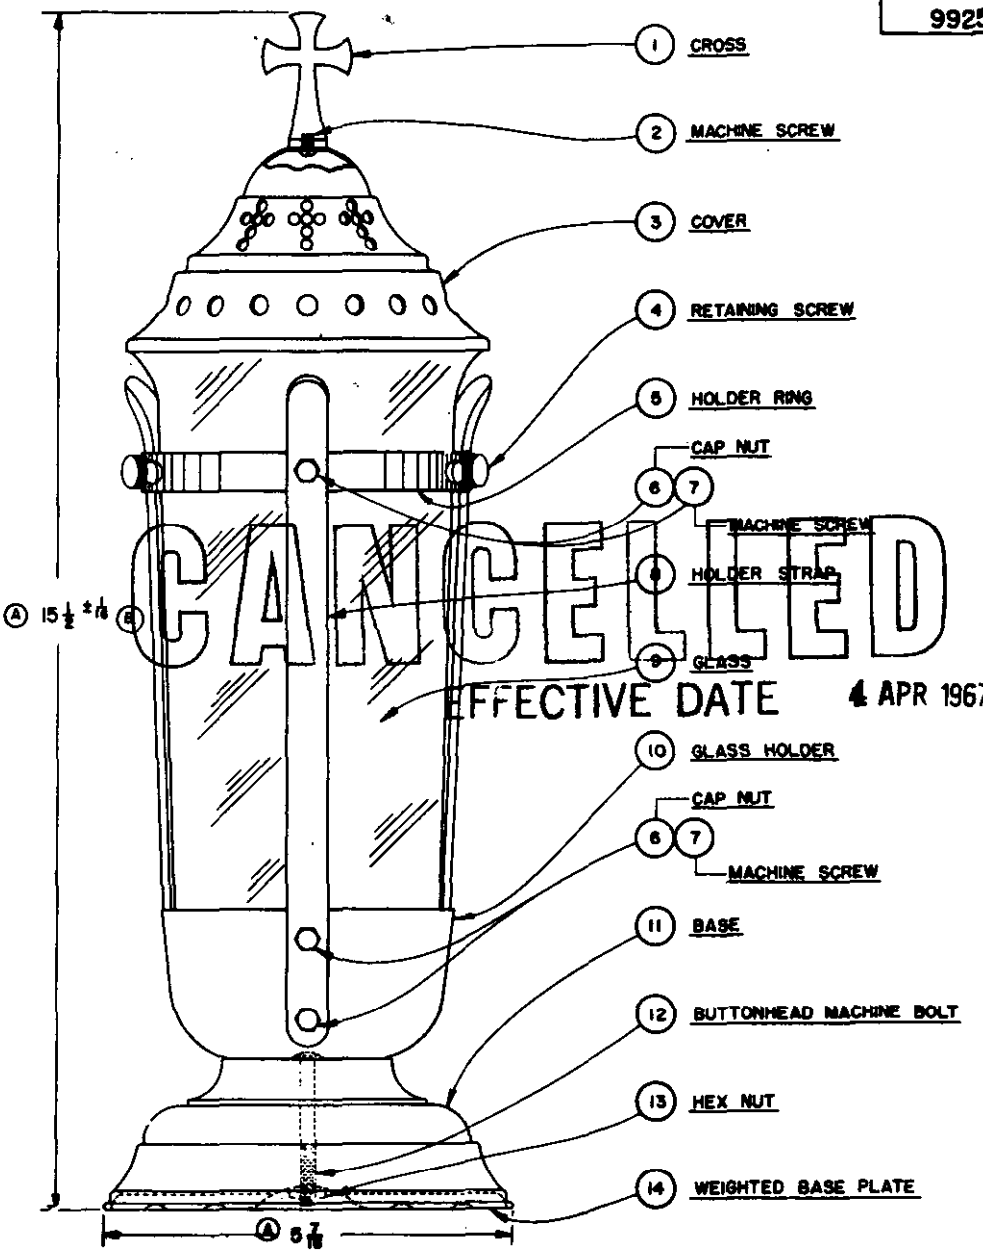
NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

FED SUP CLASS
9925

This document has been promulgated by the Department of Defense as the Military standard to limit the selection of the item, product, or design covered herein in engineering, design and procurement. This standard shall become effective not later than 90 days after the latest date of approval shown.



CANCELLED
EFFECTIVE DATE 4 APR 1967

Ⓑ

MS Part number	Finish number	FIIN
MS15371-1	1	
MS15371-2	2	

Ⓑ MATERIAL: All metal parts shall be commercial yellow brass except the lead in the weighted base plate, piece 14. The glass shall be commercial ruby glass.

Ⓑ FINISH 1: All metal parts shall be highly polished except the holder straps, piece number 8, which shall have a compound satin finish. All metal parts shall be gold lacquered. (Finish 1 shall be used unless finish 2 is required by the contract or order.)

Ⓑ FINISH 2: When specified, finish shall be as follows: Electrodeposit copper to a minimum thickness of 0.0003 inch. Electrodeposit thereon nickel to a minimum thickness of 0.0005 inch. Buff parts moderately after application of nickel; then electrodeposit chromium to a minimum thickness of 0.00005 inch.

Ⓑ TOLERANCES: Unless otherwise specified: Fractions ±1/64 inch, Decimals ± 0.005 inch.
